AUTOMOBILE SHOW AWAITS OPENING CROWD TONIGHT

Governor Whitman on Way to Kingston to Participate in Ceremonies—Citizens' Committee to Join in Reception and Street Parade to Armory Where Striking Exhibit is Prepared for Public Inspection.

Everything is in readiness for the formal opening tonight of Kingston's first and foremost Automobile Show. The big machines are all placed in the armory, which this afternoon presents an animated scene, gay with flags and bunting. Spring weather is in evidence and all signs point to an outpouring of people such as never before witnessed at this season.

Governor Whitman, who will formally open the show, is due to arrive at 5:15 o'clock and will be escorted up Broadway by a citizens' committee in automobiles to the residence of Judge Hasbrouck. The governor will speak at 8 o'clock at the armory, to which he will be escorted by Company M and Muller's band, with the Boy Scouts and the various committees in the parade, which will form near the junction of Albany and Clinton avenues. Chief of Police J. Allan Wood has arranged to add a detail of police to the governor's escort and a number of plain clothes men will be on duty during the show.

Residents of the city are urged to display the American flag along the line of march and generally through Kingston in honor of the opening day and the governor's visit.

At the armory there is only one worry noticeable among automobile men and that is the matter of deliveries and prices. Some of them are sold ahead for sixty days while others are not sure that the present prices will not advance before April 10. There have been indications of another general advance in many of the lower-priced machines and dealers for the most part hold to the opinion that there will be a tilt all along the line before the season is fairly opened. The demand will be far ahead of the supply of many of the more popular makes is also another opinion frequently expressed. The increased price of gasoline may diminish this demand slightly but inasmuch as gasoline is one of the smallest items in machine maintenance dealers do not look for any appreciable let-up so long as the oil companies keep away from the half dollar mark.

There are quantities of literature on hand for distribution and souvenirs of many varieties to interest the public. Tonight's opening will see all sorts and conditions of advertising matter, and the greatest crowd ever assembled at any spring gathering in Kingston.

Quite a sprinkling of people were there at the armory right after the noon hour and by 2 o'clock when the doors were opened a fair-sized crowd was in evidence whose members were loud in their praises of the appointments and exhibits. Many from out of town were present during the informal reception which marked the afternoon and every indication pointed to a record-breaking throng to greet Governor Whitman tonight.

In fact the capacity of the armory will be tested to its utmost as the extensive showing of the mammoth motor cars occupies the bulk of the space and the seats in the gallery will be occupied very early in the evening. Following addresses by Mayor Canfield and the governor, in the order named, the executive will go on to the Stuyvesant for the annual banquet of the Automobile Club of Ulster county and the visitors to the show will put in their time looking over the latest in this season's models.

From the moment one enters the flag-decked interior of the big shed the tremendous display of the automobile industry is impressed upon him and the big, shiny bodies loom up on all sides in handsome array. The exhibits are lined up against the four sides of the drill shed and are also banked in the center in two rows back to back, an aisle sixteen feet wide being left in between the central group and the machines backed against the walls.

White Posts Mark Section.

From the ceiling and side walls hang flags in various sizes and Old Glory predominates on the stage fitted up at the south end of the hall and also about the balcony railing. Scattered about the floor among the various exhibits are potted plants, including palms and box whose green foliage gives a spring-like touch. Marking off the different exhibits are white posts of wood set in concrete bases and on these are the cards on which the high school students have set forth the various cars and the names of the agents in striking poster fashion, these signs being one of the hits of the show in themselves.

Mr. Davis's Fine Exhibit.

Right to the left of the main entrance is the notable exhibit of Forsyth & Davis and its arrangement is a credit to Chairman William M. Davis, of the advertising committee, the original promoter of the Automobile Show, to whom was awarded first place as an exhibitor. Here is stationed the famous lecturer on the Franklin automobile which is one of the leaders for this agency, an expert who certainly makes plain the different details of automobile operation to the most inexperienced layman.

Two handsome Chandler cars, one the cloverleaf type which is unusually graceful in its make and the other a touring car, are first in the Forsyth & Davis procession and are flanked by a Grant and a McFarlan, which attracted due share of attention. The air-cooling and flexible motor features of the Franklin came in for much comment, while the graceful, rakish lines of the Chandler types appealed to many of the visitors.

Schryver Garage Showing.

Many of the dealers were curtailed by lack of space in which to house their exhibits but this does not handicap George Schryver, of the Kingston Taxi Service, whose Railroad avenue garage is represented by two big Willys-Knight cars, one an 8-cylinder limousine whose handsome appointments make it stand out in conspicuous fashion. Three Overland cars make up the rest of Mr. Schryver's exhibit and the fame of this car together with its price had many prospective purchasers interested from the time the doors were opened.

The Gramm & Koehler trucks are also included in the open air section of the Schryver showing. Mr. Schryver is also experimenting with a new rotary auxiliary to his garage.

Mr. Snyder's Cadillacs.

The Ulster Garage, of which Martin H. Snyder is the proprietor, is showing an eight-cylinder Cadillac whose many fine features are pointed out by owners present as being a little ahead of other makes. Two other Cadillacs, one a fine passenger type and the other a roadster, complete the showing of these cars with the exception of the famous Cadillac chassis in which the working parts of the automobile are shown in actual operation, glass being substituted for the steel covering of gear and bearing cases. A fine type of the Paige model has obtained a wide degree of popularity in cars of this price.

Van's Garage Represented.

With so many handsome cars on show it is hard to pick out any particular make on the basis of superior appearance. Van's Garage, however, particularly stunning combination with two low-lying Studebakers backed up with a twin-six Packard whose commodious interior would care for a family party of any size.

J. D. Schenck, manager of Van's garage, is also showing a Chalmers touring car, and two Dodges complete this comprehensive exhibit of cars graduated to all demands and pocketbooks.

The Jeffery car is shown by George T. Freer, while Mr. Kemble shows the Hupmobile.

Lezatte and the Pullman.

N. C. Lezatte and Son are showing two interesting models of the Pullman, one of which is a five passenger touring car and the other a cloverleaf. Hildreth Lezatte expects the sales manager of the New York state branch to be on hand tonight to illustrate the special points emphasized in the Pullmans whose good qualities are made plain in the two styles exhibited.

The Stuyvesant's Showing.

The Stuyvesant Garage is showing the Oldsmobile in the eight-cylinder touring car while the new car for Fire Chief Chipp in the regulation "freemen's red" attracted great attention. This car is equipped with lanterns and chemical apparatus. Its siren call ginged up Broadway on Wednesday morning on the run to the armory. In this section, Bert Chambers is also showing the Winston 33 and the Maxwell, two cars whose standing in the automobile world is of the highest.

Big Fiat a Feature.

Most expensive of all the cars on the floor, the Fiat model, four-cylinder at \$4,850, receives the far more than passing attention it deserves. With its hood, brought to a sharper curve at the top and its handsome lines, this seven passenger machine is the center of admiring groups of autoists. Mr. Chambers is an enthusiast over this car.

The Only and Ever Popular.

Right next to the big expensive Fiat is the ever popular and never equalled product of Henry Ford's brain, the Ford automobile ranging from the three passenger sedan at \$760 down to the lowest priced runabout. In all James Millard and Son, the agents, have six Fords on the floor and the buzz of interest around these familiar figures in the automobile world show that the popular appreciation still holds strong. Besides the sedan and runabout mentioned, there is a two passenger coupelet, a five passenger touring car, a special touring car and a delivery truck.

Mr. Kennedy's Cars.

O. M. Kennedy, the Central Garage, has one of the handsomest lines on the floor, showing a four and six cylinder Reo and three Saxon machines. The Reo models had

their share of the inspection. The Saxon has a six-cylinder at \$815 which is attractive while the four cylinder roadster at \$445 was much admired.

A Saxon six-cylinder chassis with a demonstrator on tap completes Mr. Kennedy's exhibit with the exception of a Vim and a Reo truck which interested business men outside the hall.

Super-Six's Straight Line.

From the Eagle Garage, Black and McGrath have brought two Buicks, second to nothing exhibited, both being six-cylinders and one of the five passenger and the other of the seven passenger type. The Buicks are in great demand this season and Mr. McGrath, one of the most optimistic automobile men at the show, believes this exhibition will make this car even more popular.

Peter Black is showing one of the sensations of the show in the Hudson Super-six for which the world's record performance for a stock car is claimed. Its straight line body is a distant novelty. A handsome white National is one of the prettiest machines shown with its spotless color well set off by black cars in the background. The Velle completes Mr. Black's showing and this six cylinder, at \$1,065 is one of the wonders of the automobile world.

Mitchell a Motor Marvel.

The big rectangular line-up of all sorts and sizes of motor cars is ended with the handsome display by the Stryker and Youmans's garage. A Mitchell special in cream white, rubbed finish, is an attractive feature of this progressive garage's section, while another car of the same make with eight cylinders boasts 73 horsepower and looks every bit of it. Three Oakland cars, one a five passenger, another a seven passenger, and a third a runabout, complete this showing together with a three passenger roadster in the Mitchell line.

Motorcycles Make Showing.

A. L. Terpening's Harley-Davidson exhibit follows the Mitchell motors and he has some striking models in the motorcycles of this make. The gasoline consumption of these cars gives special interest to their good points at this time.

Indian motorcycles are the next in the line and Charles N. Behrens presides over a noteworthy showing of this useful and popular vehicle. An up-to-date side-car is shown with several of the very latest designs of Indian ideas.

Accessories in Evidence.

Accessories in widest variety claim the attention in the rooms just off the drill shed at the right of the main entrance. Charles A. Warren's complete sporting goods store is represented in fine form with about everything that is now considered an automobile necessity. An Aeolian-Vocalian will fill in the musical entertainment in Mr. Warren's section.

Brown's Auto Supply Works is finely arrayed in bunting and has an even finer array of motor equipment. The many neat devices shown will cause autoists to linger long in this part of the show.

Other accessories are shown in the lines of J. G. Johnson and the Eagle Garage while in the next room Forsyth & Davis and Bert Chambers have an elaborate display. With the last named part is shown a full line of the Dixon Crucible Company's lubricants. James Austin has another exhibition of auto equipment, as has the L. S. Wine and Company.

One of the latest wires in this section is Harris Brown of Brown's Vulcanizing Works, where Mr. Brown

MOTORIST'S CREED OF ROAD COURTESY

When it comes to courtesy on the road, President M. M. Wall of Buffalo, the venerable leader of the New York State Motor Federation, cannot be beaten. He is so careful of little things of a courteous nature that he seldom drives over fifty miles in a day's run. In his "book of habits" he has inscribed the following courtesy rules which motorists in general might well adopt.

BE COURTEOUS.

First, Do Not Hog the Middle of the Street.—Give the other fellow room to go by and when he attempts to pass you do not speed up and perhaps crowd him into a safety zone. Be courteous.

Keep Out of the Safety Zones.—They are for the pedestrian. It is up to you to make them safe. Be courteous.

When a Fellow Comes in From a Side Street.—Give him room to turn the corner; do not crowd. When you park behind another car, remember he may wish to leave before you do. Give him room to get out; don't crowd. When you expect to stop or turn do not keep your intentions secret; think of the fellow behind. Be courteous.

Do Not Dodge in and Around Cars in line in traffic. Remember they were there first, and have just as great a desire to get through as you have. Be courteous.

Do Not Presume Too Much When You Have the Right of Way.—Perhaps the other fellow does not know it. Be courteous.

Do Not Cut in Front of a Street Car.—Remember the motorman is human and most of them will learn all the courtesy you will teach them. Be courteous.

When You Get the "Go" Signal From a Traffic Officer.—Remember to give the pedestrian time to get out of the way. Be courteous.

When You See People on the Curb trying to reach a car or vice versa, slow up, stop if necessary, but let them cross without danger. This is one of the courtesies that will pay the motoring public best. Be courteous.

When a Pedestrian Does Not or Will Not Pay Any Attention to Your Horn.—It is well to remember that the deaf, hundreds of them, use the streets as well as you. Be courteous.

When You Have an Insane Desire to Speed.—Remember the other fellow you are passing have just as much right to break the law as you have. Think of the sentiment you are creating against motoring. Think of the accidents that may happen by your hitting some other driver coming in from a side street, or pedestrian who does not see you coming. Think of the people in your own car, perhaps, who have a fear of speeding and are trying to be game and not let you know it. It is not sport to drive fast in the city; it is the utmost courtesy to your fellow motorists and fellow citizens. Be courteous.

When a Pedestrian Sees You Coming.—And deliberately pays no attention to you, remember that some are mentally deficient and you cannot tell them from the clothes they wear. Be courteous.

When You See a Child on a Curb, Slow Up.—Remember the child can start quicker than you can stop. Be courteous.

Do Not Open Your Cutoff on the streets during the day. Remember there are many sick people and people on their death beds. Do not open your cutoff at night, for you will probably remember some night when you were disturbed by some fool whose greatest claim to fame was his noise. Be courteous.

And Remember That Your Horn is just a few times worse than your cutoff. Be courteous.

Be Courteous to Police Officials.—And they will more than repay it. And if you feel like swearing at the ordinances, or if you do not like the traffic arrangements, remember that perhaps you may be wrong.

Seeking Saugerties Location.

A representative of an out of town manufacturing concern employing 100 men, and paying salaries ranging from \$15 to \$22 per week, was in Saugerties Tuesday consulting with members of the Business Men's Association, relative to locating there. The concern desires a plot of land suitable to erect a factory building thereon, and asks that such land be donated. Their financial rating is A-1 and the association members were quite favorably impressed with the request. Definite news in this matter will be given later.—Saugerties Post.

Two Services on Sunday.

On Sunday, April 2, religious services at the Y. M. C. A. will take the form of a moving picture called "From Manger to the Cross." This picture is in seven parts and was taken in the Holy Land. Owing to the enormous crowds that have been attending these meetings the association has arranged to have two services, one at 2 o'clock for children only, and the other at 3:45 for adults only.

It Was a Saxon.

Through an error in the Reo advertisement of O. M. Kennedy's Central Garage in last night's automobile section of The Freeman, a Saxon car was used whereas it should have been that of a Reo automobile.

FRENCH WIPE OUT GERMAN ARMY CORPS

By Telegraph to The Freeman.

Paris, March 30.—Nearly an entire army corps was wiped out by French machine guns and 75's when the Germans attacked the positions northwest of Verdun yesterday. The German losses were placed at 15,000.

The fighting around Avocourt forest, and the village of Malancourt is described in dispatches from the front as "extremely bloody."

From three to seven waves of German infantry swept towards the French trenches. At least 30,000 men were in the attacking forces. These were drawn from the Bavarians and 15th army corps.

The Germans did not get a chance to engage the French in hand to hand fighting as the ranks were swept away by the terrific fire from the French machine guns, and 3-inch batteries of artillery before they reached the trenches.

Before the infantry assaults were begun the French positions were violently shelled by the Germans over a five mile front, but the foot soldiers attacked along a front only 1,000 yards wide. The object of the attack was to capture the villages of Malancourt and Haucourt in order to straighten out the German line on the left side of the Meuse. Debouching from Malancourt woods the Teutons advanced with fixed bayonets singing the "Watch on the Rhine."

As the troops moved into the open all the French batteries opened, and the ground was swept with a hail of lead from the rapid-firers. Six assaults were delivered, the last two being made after darkness had fallen. At one time the Germans got within fifty yards of the French positions, but this was the closest they ever were.

So severe were the German losses in this four hour battle that when the French suddenly attacked their lines a couple of miles farther south the Teutons were caught napping and were driven from their positions. One thousand fresh troops tried to win back the lost ground, but failed.

BIG FRESHET IN GENESSEE RIVER

By Telegraph to The Freeman.

Rochester, N. Y., March 30.—The Genessee river continued to rise this morning and at 10 o'clock the water was within a few inches of the flood mark reached by the freshet of 1913, when front street was flooded, and water was flowing into Main street.

Already cellars of buildings which skirt the river in the business section are flooded, and it is expected that before night the services of the downtown engine companies will be needed to pump the water out of the basements of several of the big office buildings in the heart of the business district.

A washout on the Erie railroad, between this city and Avoca, has tied up traffic on the line, and service on several branch lines up the valley has been suspended.

Several manufacturing plants at Mount Morris and other up valley points closed down because of overflowing water yesterday. The high water mark at Tomkinson's mill, made in 1865, has already been reached by the present flood which has inundated thousands of acres of farmland in that vicinity.

Efforts to dynamite the ice pack which is threatening the destruction of Ballantine bridge, four miles south of the city, have thus far proven unsuccessful, and the continued accumulation of ice and refuse is causing much anxiety. Another attempt will be made today to dynamite the jam.

Given Another Chance.

Hiram McKinstry, 38 years old, who said he was a carpenter and lived in Albany was arrested on Wednesday evening by Officer DeGraff on a charge of panhandling. This morning Hiram when arraigned before Recorder Lang pleaded guilty and made an earnest plea to be given another chance. The court gave him one hour to get out of town and informed Hiram if arrested again he would be sent to the pen at Albany.

High Cost of Preparedness.

"Captain" Charles H. Smith, of the Boys' Provisional Company, Poughkeepsie, explained to the police of that city his bookkeeping methods Wednesday and showed that of \$220 collected, \$213 has been expended for uniforms and five guns. Dr. H. R. Hawley has been appointed business manager in Smith's stead.

WHY MAIL WAS DELAYED.

Veteran Mail Carrier Attacked by Dog on Abell Street.

Wednesday afternoon Captain Ike Hotelling, who carries the mail from the Rondout postoffice to South Rondout, was attacked by a dog on Abell street and bitten in the leg. The wound was deep enough to draw blood and the captain's trouser leg was torn by the dog's teeth. The dog is said to be owned by a man named Barnhardt. Captain Hotelling has carried the mail for seventeen years and this was the first time that he was somewhat delayed.

Parade on Memorial Day.

At a meeting of representatives of the G. A. R., Company M, Spanish-American War Veterans, Sons of Veterans and the Old Guard at the armory Wednesday night, it was decided to invite every fraternal and civic society and fire companies in the city to take part in the Decoration Day parade this year. Another meeting will be held at the armory April 28.

From the Eagle Garage, Black and McGrath have brought two Buicks, second to nothing exhibited, both being six-cylinders and one of the five passenger and the other of the seven passenger type. The Buicks are in great demand this season and Mr. McGrath, one of the most optimistic automobile men at the show, believes this exhibition will make this car even more popular.

Peter Black is showing one of the sensations of the show in the Hudson Super-six for which the world's record performance for a stock car is claimed. Its straight line body is a distant novelty. A handsome white National is one of the prettiest machines shown with its spotless color well set off by black cars in the background. The Velie completes Mr. Black's showing and this six-cylinder, at \$1,065 is one of the wonders of the automobile world.

Mitchell a Motor Marvel.
The big rectangular line-up of all sorts and sizes of motor cars is ended with the handsome display by the Stryker and Tompkins's garage. A Mitchell special in cream white, rubbered finish, is an attractive feature of this progressive garage's section. While another car of the same make with eight cylinders boasts 73 horsepower and looks every bit of it. Three Oakland cars, one a five passenger, another a seven passenger, and a third a runabout, complete this showing together with a three passenger roadster in the Mitchell line.

Motorcycles Make Showing.
A. L. Terpening's Harley-Davidson exhibit follows the Mitchell motors and he has some striking models in the motorcycles of this make. The gasoline consumption of these cars gives special interest to their good points at this time.

Indian motorcycles are the next in the line and Charles N. Behrens presides over a noteworthy showing of this useful and popular vehicle. An up-to-date side-car is shown with several of the very latest designs of Indian ideas.

Accessories in Evidence.
Accessories in widest variety claim the attention in the rooms just off the drill shed at the right of the main entrance. Charles A. Warren's complete sporting goods store is represented in fine form with about everything that is now considered an automobile necessity. An Aeolian-Vocalion will fill in the musical entertainment in Mr. Warren's section.

Brown's Auto Supply Works is finely arrayed in bunting and has an even finer array of motor equipment. The many neat devices shown will cause motorists to linger long in this part of the show.

Other accessories are shown in the lines of J. G. Johnson and the Eagle Garage while in the next room Forsyth & Davis and Burt Chambers have an elaborate display. With the last named part is shown a full line of the Dixon Crucible Company's lubricants. James Austin has another exhibition of auto equipment, as has the L. S. Winne and Company.

One of the latest wires in this section is Harris Brown of Brown's Vulcanizing Works, where Mr. Brown

MISS LLOYD-GEORGE. (INTL. FILM SERVICE.)

DAUGHTER OF BRITISH MINISTER OF MUNITIONS SELLS FLAGS

Miss Lloyd-George, daughter of the British minister of munitions, is shown here as she appeared in the Welsh national costume on the streets of London selling flags on Welsh flag day to raise funds for the war relief fund work.

Mr. Lloyd-George is a Welshman.

gives a personally conducted demonstration of the economies in making injured tires as good as new. The equipment of the Brown Works on the Hudson street, just off Broadway, is the most complete of any in the Hudson Valley and his part in the show is most educational for even experienced motorists.

That about concludes the exhibits, any detailed description of which is prohibitive in this space. It is sufficient to say that the big show is the most complete in its appointments of any of those staged outside of Albany and New York. Expressions to this effect were voiced by visiting delegations this afternoon and are bound to be echoed by the big crowd within the armory doors tonight.

All is in readiness for the governor's arrival at the armory and the only question is the ability to comfortably care for the crowd. The seating capacity of the balcony is sure to be tested at an early hour and early today.

The speaker for tomorrow evening will be Secretary of State Hugo who will speak at 8 o'clock.

CIVIL WAR VETERAN INJURED BY FALL

Without a Home He Was Arrested on Technical Charge of Loitering and Sent to County Jail For Ten Days.

John Brady, 79 years old, a veteran of the Civil War, was severely injured by a fall at his boarding place on East Union street a few days ago, and this morning he appeared at the city hall and told a tale of being without money or a home and asked to be sent to the county jail where he could receive treatment for his injuries.

A technical charge of loitering was preferred against him and Recorder Lang gave him ten days at the county jail.

Mr. Brady has been living in town for some time and has made a living by peddling. In ascending to his room the other day he slipped and fell headlong down stairs injuring his head and side. A physician was summoned and attended to his injuries which were quite severe. As Mr. Brady had no friends or money he decided to apply to the police for assistance.

This morning he told the recorder that he did not care to go to a soldier's home, but would rather be sent to the county jail where he would be assured of getting his meals and receiving medical treatment from the jail physician. In fact Mr. Brady preferred the jail to the city home.

Mr. Brady's case was one of the saddest that has been brought to the attention of Recorder Lang in some time.

MOTORIST'S CREED OF ROAD COURTESY

When it comes to courtesy on the road, President M. M. Wall of Buffalo, the venerable leader of the New York State Motor Federation, cannot be beaten. He is so careful of little things of a courteous nature that he seldom drives over fifty miles in a day's run. In his "book of habits" he has inscribed the following courteous rules which motorists in general might well adopt.

BE COURTEOUS.

First, Do Not Hog the Middle of the Street.—Give the other fellow room to go by and when he attempts to pass you do not speed up and perhaps crowd him into a safety zone. Be courteous.

Keep Out of the Safety Zones.—They are for the pedestrian. It is up to you to make them safe. Be courteous.

When a Fellow Comes in From a Side Street.—Give him room to turn the corner; do not crowd. When you park behind another car, remember he may wish to leave before you do. Give him room to get out; don't crowd. When you expect to stop or turn do not keep your intentions secret; think of the fellow behind. Be courteous.

Do Not Dodge In and Around Cars in Line in Traffic. Remember they were there first, and have just as great a desire to get through as you have. Be courteous.

Do Not Presume Too Much When You Have the Right of Way.—Perhaps the other fellow does not know it. Be courteous.

Do Not Cut in Front of a Street Car.—Remember the motorman is human and most of them will learn all the courtesy you will teach them. Be courteous.

When You Get the "Go" Signal From a Traffic Officer.—Remember to give the pedestrian time to get out of the way. Be courteous.

When You See People on the Curb trying to reach a car or vice versa, slow up, stop if necessary, but let them cross without danger. This is one of the courtesies that will pay the motoring public best. Be courteous.

When a Pedestrian Does Not or Will Not Pay Any Attention to Your Horn.—It is well to remember that the deaf, hundreds of them, use the streets as well as you. Be courteous.

When You Have an Insane Desire to Speed.—Remember the other fellows you are passing have just as much right to break the law as you have. Think of the sentiment you are creating against motoring. Think of the accidents that may happen by your hitting some other driver coming in from a side street, or pedestrian who does not see you coming. Think of the people in your own car, perhaps, who have a fear of speeding and are trying to be game and not let you know it. It is not sport to drive fast in the city; it is the utmost discourtesy to your fellow motorists and fellow citizens. Be courteous.

When a Pedestrian Sees You Coming.—And deliberately pays no attention to you, remember that some are mentally deficient and you cannot tell them from the clothes they wear. Be courteous.

When You See a Child on a Curb, Slow Up.—Remember the child can start quicker than you can stop. Be courteous.

Do Not Open Your Cutout on the streets during the day. Remember there are many sick people and people on their death beds. Do not open your cutout at night, for you will probably remember some night when you were disturbed by some fool whose greatest claim to fame was his noise. Be courteous.

And Remember That Your Horn is just a few times worse than your cutout. Be courteous.

Be Courteous to Police Officials.—And they will more than repay it. And if you feel like swearing at the ordinances, or if you do not like the traffic arrangements, remember that perhaps you may be wrong.

Seeking Saunteries Location.
A representative of an out of town manufacturing concern employing 100 men, and paying salaries ranging from \$15 to \$22 per week, was in Saunteries Tuesday consulting with members of the Business Men's Association, relative to locating there. The concern desires a plot of land suitable to erect a factory building thereon, and asks that such land be donated. Their financial rating is A-1 and the association members were quite favorably impressed with the request. Definite news in this matter will be given later.—Saunteries Post.

Two Services on Sunday.
On Sunday, April 2, religious services at the Y. M. C. A. will take the form of a moving picture called "From Manger to the Cross." This picture is in seven parts and was taken in the Holy Land. Owing to the enormous crowds that have been attending these meetings the association has arranged to have two services, one at 2 o'clock for children only, and the other at 3:45 for adults only.

It Was a Saxon.
Through an error in the Reo advertisement of O. M. Kennedy's Central garage in last night's automobile section of The Freeman, a Saxon car was used whereas it should have been that of a Reo automobile.

FRENCH WIPE OUT GERMAN ARMY CORPS

By Telegraph to The Freeman.

Paris, March 30.—Nearly an entire army corps was wiped out by French machine guns and 75's when the Germans attacked the positions northwest of Verdun yesterday. The German losses were placed at 15,000.

The fighting around Avocourt forest, and the village of Malancourt is described in dispatches from the front as "extremely bloody."

From three to seven waves of German infantry swept towards the French trenches. At least 30,000 men were in the attacking forces. These were drawn from the Bavarians and 15th army corps.

The Germans did not get a chance to engage the French in hand to hand fighting as the ranks were swept away by the terrific fire from the French machine guns, and 3-inch batteries of artillery before they reached the trenches.

Before the infantry assaults were begun the French positions were violently shelled by the Germans over a five mile front, but the foot soldiers attacked along a front only 1,000 yards wide. The object of the attack was to capture the villages of Malancourt and Haucourt in order to straighten out the German line on the left side of the Meuse. Debouching from Malancourt woods the Teutons advanced with fixed bayonets singing the "Watch on the Rhine." As the troops moved into the open all the French batteries opened, and the ground was swept with a hail of lead from the rapid-firers. Six assaults were delivered, the last two being made after darkness had fallen.

One time the Germans got within fifty yards of the French positions, but this was the closest they ever were.

So severe were the German losses in this four hour battle that when the French suddenly attacked their lines a couple of miles farther south the Teutons were caught napping and were driven from their positions. One thousand fresh troops tried to win back the lost ground, but failed.

BIG FRESHET IN GENESSEE RIVER

By Telegraph to The Freeman.

Rochester, N. Y., March 30.—The Genessee river continued to rise this morning and at 10 o'clock the water was within a few inches of the flood mark reached by the freshet of 1913, when Front street was flooded, and water was flowing into Main street.

Already cellars of buildings which skirt the river in the business section are flooded, and it is expected that before night the services of the downtown engine companies will be needed to pump the water out of the basements of several of the big office buildings in the heart of the business district.

A washout on the Erie railroad, between this city and Avoca, has tied up traffic on the line, and service on several branch lines up the valley has been suspended.

Several manufacturing plants at Mount Morris and other up valley points closed down because of overflowing water yesterday. The high water mark at Tomkinson's mill, made in 1865, has already been reached by the present flood which has inundated thousands of acres of farm land in that vicinity.

Efforts to dynamite the ice pack which is threatening the destruction of Ballantine bridge, four miles south of the city, have thus far proven unsuccessful, and the continued accumulation of ice and refuse is causing much anxiety. Another attempt will be made today to dynamite the jam.

Given Another Chance.
Hiram McKinstry, 38 years old, who said he was a carpenter and lived in Albany was arrested on Wednesday evening by Officer DeGraff on a charge of panhandling. This morning Recorder Lang pleaded guilty and made an earnest plea to be given another chance. The court gave him one hour to get out of town and informed Hiram if arrested again he would be sent to the pen at Albany.

High Cost of Preparedness.
"Captain" Charles H. Smith, of the Boys' Provisional Company, Poughkeepsie, explained to the police of that city his bookkeeping methods Wednesday and showed that of \$226 collected, \$213 has been expended for uniforms and five cents for Dr. H. R. Hawley has been appointed business manager.

The wound was deep enough to draw blood and the captain's trouser leg was torn by the dog's teeth. The dog is said to be owned by a man named Barnhardt. Captain Hotelling has carried the mail for seventeen years and this was the first time that he was somewhat delayed.

WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness. Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores—always get the genuine.

NICE WAYS WITH MEAT.

A couple of calves' hearts stewed until tender and seasoned well then sliced either hot or cold make a nice supper dish.

Beef Tongue Piquant.—Take a fresh tongue, place in a kettle with boiling water and cook six hours or longer, until tender. Then peel and place the tongue in liquor to reheat. Serve hot, cut in slices with piquant sauce.

Piquant Sauce.—Brown four tablespoonfuls of flour in two tablespoonfuls of butter, and three-fourths of a cupful of the stock in which the tongue was cooked, a half teaspoonful of paprika, a chopped sour cucumber pickle, a teaspoonful of salt and a tablespoonful of chopped raisins. Mix well and cook until well blended. Serve hot with the tongue. Season the tongue with salt and pepper while first cooking and if liked, the seasoning of a stalk of celery, one onion, a red pepper and a carrot, adds much to its flavor.

Ragout of Mutton.—Remove the skin from serving sized pieces of mutton stew, brown in hot fat, add a sliced onion, two sliced carrots, two cupfuls of potatoes, sliced, and a few mushrooms add to the delicacy of the flavor. The dry ones may be used if soaked over night. Cook ten minutes, then place in a cooker for six or eight hours or simmer on the back part of the stove.

Cornbeef Hash.—This common dish served uncommonly is most savory. Rub the inside of the frying pan with a slice of onion. Put in a tablespoonful of butter and when hot add a pint of chopped corned beef, a pint of chopped boiled potatoes and a half teaspoonful of salt, a fourth of a cupful of cream and a half teaspoonful of paprika. Spread evenly over the frying pan and let it brown underneath. When done, fold over and turn out on a hot platter.

Liver is quite an elegant dish, parboiled, then larded with salt pork and baked in the oven surrounded with chopped carrot, onion, the juice of a lemon, a bay leaf and boiling water to cook. Baste the meat while roasting.

STUDENTS' WORK A SHOW FEATURE

Placards Are the Product of High School Students' Skill in Drawing and Lettering.

High school students have contributed in no small measure to the interest of the automobile show with their placards designating the different exhibits. These are cards about 15 by 20 inches on which are poster representations of the cars with the names of the cars and the agency. Miss Doud, the instructor at the school, has also added several showing her skill.

Among the artists are Edwin A. Koch, Louis Silverman, Watson Wheeler, Gould Ganoung, Alphonsus Conway, Eugene Ryan, Watson Haines, James Dempsey, W. Lowyn Longyear, C. S. Hornbeck, Nicholas Stock, Aubrey Arnst, Robert Adams, Russell Dana and William H. Hunter.

Mr. Hornbeck has a striking card showing the National in a striking and faithful style while Mr. Koch has a McFarlan poster for Forsyth and Davis that is well done. Mr. Longyear's Packard and Mr. Hunter's Pullman are finely executed and each of the other students has shown his skill to a marked degree in these cards all of which are now in place.

Mr. Dana has a Fiat in yellow while Mr. Arnst's Red is strikingly true to type as is Mr. Silverman's Chandler in blue. Mr. Conway's Paige deserves mention as do the other individual exhibits in these placards. But the public and the judges can decide on these and such is the excellence of the works that it looks as though the committee is bound to disagree from the beginning in picking out the best.

WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness. Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores—always get the genuine.

The KITCHEN CABINET

Whatever we intensely desire must come to us. It is only the question of the force and of constancy of our desire.
—E. W. Wilcox.

There grows within each heart the giant image of perfection.—Browning.

NICE WAYS WITH MEAT.

A couple of calves' hearts stewed until tender and seasoned well then sliced either hot or cold make a nice supper dish.

Beef Tongue Plquant.—Take a fresh tongue, place in a kettle with boiling water and cook six hours or longer, until tender. Then peel and place the tongue in its liquor to reheat. Serve hot, cut in slices with piquant sauce.

Piquant Sauce.—Brown four table-spoonfuls of flour in two table-spoonfuls of butter, and three-fourths of a cupful of the stock in which the tongue was cooked, a half teaspoonful of paprika, a chopped sour cucumber pickle, a teaspoonful of salt and a table-spoonful of chopped raisins. Mix well and cook until well blended. Serve hot with the tongue. Season the tongue with salt and pepper while first cooking and if liked, the seasoning of a stalk of celery, one onion, a red pepper and a carrot, adds much to its flavor.

Ragout of Mutton.—Remove the skin from serving sized pieces of mutton stew, brown in hot fat, add a sliced onion, two sliced carrots, two cupfuls of potatoes, sliced, and a few mushrooms add to the delicacy of the flavor. The dry ones may be used if soaked over night. Cook ten minutes, then place in a cooker for six or eight hours or simmer on the back part of the stove.

Cornbeef Hash.—This common dish served uncommonly is most savory. Rub the inside of the frying pan with a slice of onion. Put in a table-spoonful of butter and when hot add a pint of chopped corned beef, a pint of chopped boiled potatoes and a half teaspoonful of salt, a fourth of a cupful of cream and a half teaspoonful of paprika. Spread evenly over the frying pan and let it brown underneath. When done, fold over and turn out on a hot platter.

Liver is quite an elegant dish, par-boiled, then larded with salt pork and baked in the oven surrounded with chopped carrot, onion, the juice of a lemon, a bay leaf and boiling water to cook. Baste the meat while roasting.

KINGSTON, N. Y., MAR. 30, 1916.

In welcoming Governor Whitman, who arrives here this afternoon to open the Automobile Show, Kingston does well to lay aside political affiliations and to pay respect to the Governor as the chief executive of the greatest and richest commonwealth of the United States. For Governor Whitman, both as a citizen and a public official, Kingston and Ulster county have a warm place in their hearts. As citizen and official he has lived a clean life, untarnished by scandal of any sort and open only to such criticism as Governor Whitman's Americanism would lead him to urge upon every thinking citizen of the Empire State who takes an interest in public affairs; furthermore the Governor has urged and does urge every right-minded individual to take such an interest, to do his own thinking clearly and not to be afraid to express his opinion at the proper time and in the proper manner. Entirely aside from the fact that he is entitled to respect and honor by reason of his position, Governor Whitman is entitled to every evidence of honor for what he already has accomplished, in addition to which a warm welcome should be accorded to him for the friendly feeling which he has shown repeatedly for Ulster county and of which his present visit furnishes additional evidence.

Tales of the Borgias, the Medici and other noted poisoners of their day come to mind for purposes of comparison with the exploits of Dr. Arthur Warren Waite, the youthful New York dentist who has confessed that he poisoned his father-in-law, John E. Peck, a wealthy resident of Grand Rapids, Michigan, and is under suspicion of plotting the death of other members of the Peck family, including his own wife, who inherited half a million dollars from her father. The Waite family, almost prostrated by the shock, say they do not seek to defeat justice, but it has been their belief that Dr. Waite has been mentally unbalanced for many years, a theory which apparently seems to gain credence among the surviving members of the Peck family, who do not wish the disgrace of having had a cold blooded murderer as a family adjunct. Under careful tutelage of expert criminal lawyers many wealthy murderers have escaped just punishment by acting out a carefully prepared plea of insanity. It may be satisfying to the Pecks to adopt the view that Dr. Waite was insane, but what moral obloquy must attach to the members of the Waite family who now profess to believe he has been mentally unbalanced for many years, yet failed to raise their voice in protest at the increased opportunity for dangerous practices which a man possessing such a mind would have by reason of marriage to a woman of great wealth. They are not disgraced if it shall be proved that Dr. Waite is mentally unbalanced, but they are disgraced if, having had knowledge of that fact, they permitted him to marry a young woman who in the eyes of society was considered a desirable "catch." Do families consider that phase of the matter or does society overlook it?

Environment cuts a far more conspicuous figure in the formation of character than heredity. Selfishness rather than insanity is a more likely motive for these coldblooded murders as shown by a comparison of the two Waite brothers and their characteristics. One of these brothers was in a position through his marriage where every reasonable wish could be gratified and only a perverted ambition could have called him from the straight and narrow path. The tennis-playing proclivities failed to make up for the character-deteriorating influences of the soft life that "Dr." Waite led as manifested in the revelations now featuring the newspapers. Compare with that the other brother, whose environment of hard work appears to have made his character unusually strong by

contrast. His brotherly affection is plainly subservient to his sense of justice, and his part in laying bare the double crime has been the most important contribution to the unraveling of the case thus far. Yet the pair are brothers, both with the same start in life. One worked hard for his living, the other lived softly and on the fruits of imposture. The tragic position of the straight brother is only surpassed by the strength of character he has exhibited in meeting the demands upon his sense of honor and justice.

LITTLE LAUGHS.

"Is there anything between Jennie and young Jones?" "Nothing that I know of, except poverty."—Baltimore American.

"You know, a penny saved is a penny earned." "That's the selfish view," replied the spendthrift. "When you let go of the penny, somebody else gets the chance to earn it."—Washington Star.

"What's the leading industry of Crimmon Gulch?" "Inquired the stranger. "Literature," replied Broncho Bob. "If you don't believe it look at this here bunch o' minin' prospectuses."—Washington Star.

"Take a good look at this ladder, my boy." "What for?" "And then remember that if it were possible to get to the top at a single bound there would be no need for the bottom rungs."—Detroit Free Press.

"He—'But I asked you, dearest, to keep our engagement a secret for the present.' She—'I couldn't help it. That hateful Miss Oldum said the reason I wasn't married was because no fool had proposed to me, so I up and told her you had.'—Boston Transcript.

In His Line.
Harry Lauder, the Scottish comedian, said at a dinner in New York:

"I know a German-American dentist, not yet naturalized, who was urged by his consul to go back home on a false passport and take up the cause of the fatherland."

"But what good could I do?" he said. "I'm only a dentist."

"A dentist? Then you're the very man for us," said the consul. Think how useful you'd be in gas attacks."—Washington Star.

A Final Clearance.
"Before I agree to undertake your defense," said the lawyer, "you will have to tell me the whole truth. Did you embezzle the \$500 you are accused of having taken?" "Yes, sir," replied the accused man. "I'll not attempt to conceal the fact from you. I stole every penny of it."

"How much of it have you still?" "It's all gone but \$15." "Young man," said the lawyer, "you had better plead guilty and throw yourself on the mercy of the court." "I'll do it if you say so, sir. What are you going to charge for this advice?" "Fifteen dollars!" replied the lawyer.—New York Evening Journal.

A Tricky Chap.

A senator was talking about national preparedness. "The man who would make political capital out of such an important question as preparedness," he said, "is as selfish and tricky as the chap in the station bar. A chap hustled into a station bar. He had only a minute or so to catch his train. But the bartender was busy and the chap saw that he stood to lose out on being served. Two gentlemen, each with whisky and soda before him, were conversing pleasantly before the bar. Well, what does this chap do but reach for one of the whiskies and toss it off. The owner started back. 'How dare you?' he spluttered. 'The idea! Why, that wasn't your whisky!' 'Wasn't it?' said the chap. 'Then I guess this one must be mine, eh?' And he tossed off the other gentleman's drink and dashed out and caught his train just as it was moving off."—Washington Post.

Embarrassing the Teacher.

Jimmy giggled when the teacher read the story of the Roman who swam across the Tiber three times before breakfast.

"You do not doubt that a trained swimmer could do that, do you Jimmy?"

"No, sir," said Jimmy; "but I wonder why he didn't make it four and get back to the side his clothes were on."—London Opinion.

UPTOWN BUSINESS SECTION'S GROWTH

With the converting of the Kelder residence on Fair street, next to the Ulster Garage, into a business house, the last residence in that section of the city has been turned over to business purposes. The uptown business section has gradually reached out until many of the finest residences have become surrounded with business houses and finally have themselves been converted into stores.

Only a short time ago the two blocks on Fair street between John and Pearl street boasted a number of homes all of which have been sold and made into business properties until now the Forsyth residence at Pearl street is the only remaining one. A short time ago the site occupied by the Warren building contained a home which was converted into the present structure.

The steady growth of the city is evident in all sections and is especially noticeable to the former resident who now occasionally visits.

The Kelder property will be changed and altered so as to make it suitable for the tailoring business of Mr. Weisberg, who has bought the property. Offices will also be rented on the second floor.

FESTIVAL CHORUS TO MEET SOON

For some time the singers in this city have been asking when the rehearsals of the big chorus for this year's Spring Festival would begin, and what the Oratorio would be, and lots of other questions, showing by their interest their desire to take up the work again. Just as many more people who attended the Creation last year, have asked, also, about this year's festival, and the Kingston Symphony Society is glad to be able to announce the date of the first rehearsals.

The oratorio to be given will be Mendelssohn's great Oratorio of Elijah. This work is rarely beautiful both as to musical composition and text and is a work to hold the interest of both the student who takes part in the chorus and of those who hear the work. Mr. Coke-Jephcott, who so admirably and successfully conducted the Oratorio of The Creation last year, is especially prepared to conduct this oratorio, and the Symphony Orchestra will, as last year, furnish the instrumental part of the work. The soloists will be announced later.

The out-of-town choruses that joined in the festival last spring, considerably augmented, and having for the most part worked all winter, will take up the work with the Kingston chorus. It is expected that there will be other out-of-town choruses formed, as the wish to join in the festival has been expressed in other villages than those sending delegations last year.

Now as to that first rehearsal. On Wednesday evening next, April 5th, in Symphony Hall in the Crosby building, corner of Wall and John streets. All persons desiring to register may do so, beginning at seven o'clock. Mr. Coke-Jephcott will be at Symphony Hall at eight o'clock to meet the chorus, and all present will gain some idea of the work. As large a registration as possible is urged for this evening, in order that the rehearsals may begin promptly and continue regularly until the time of the festival which will be given the first week in June. Each person registering will be asked to pay fifty cents for their score. At the close of the festival any one wishing to return a score in good condition may do so, and his money refunded. But it is necessary that the scores should be paid for when the singer registers. It is hoped that the men of the city who like singing and can sing, will avail themselves of the privileges of this festival chorus and join in time to take up the work at the first rehearsals.

PARENTS INTERESTED.

Enthusiastic Parent-Teachers' Association Meeting in School No. 7.

On Tuesday afternoon of this week, an enthusiastic and interesting Parent-Teachers' Association meeting was held at No. 7 School on Crown street. The program for the meeting included a "Question and Answer Box," which was productive of valuable discussion of various pertinent matters. Mrs. M. J. Michael gave a talk on "Food Values," which was highly appreciated by the parents as well as teachers. Miss Gertrude Bruyn pleased all with her singing of "A Japanese Maiden." Mrs. Fessenden gave a spirited talk on "Self Control," that was exceptionally good, and Miss Bruyn sang again, charmingly, "An Irish Lullaby." At the close of the program, tea and wafers were served. Little motto cards had been printed for the club and were for sale, the proceeds to go for the uses of the club, and a neat little sum was realized from those sold, with many more to be sold.

Delightful Dutch Sale.

In the evening these same maidens will serve ice cream and cake and there will be a Dutch entertainment. Many fancy articles will be for sale both afternoon and evening, unless, of course they are all sold in the afternoon, which might easily happen.

W.C.T.U. INSTITUTE AT HIGHLAND

(Official Report.)

A stormy day did not affect the zeal and enthusiasm of the white ribboners, who gathered in annual institute at the Presbyterian Church, Highland, on Wednesday morning, nor did it much affect the number of delegates who attended.

The church had been artistically decorated for the occasion. White ribbon bows and festoons of ribbon and large masses of cedar and Easter lilies and ferns decorated the platform on which also were placed large portraits of Frances E. Willard and the late secretary of Ulster county, whose home was in Highland—Mrs. C. H. Ganse.

A number of banners and posters used by the women in their work were displayed in various parts of the church and a prominent place given to the stars and stripes for these women are intensely patriotic and never fail to have the flag in evidence.

The institute opened with a devotional service conducted by Mrs. Bloom of Wallkill, county superintendent of evangelistic work. All joined in singing "How Firm a Foundation." The leader read part of John XV, followed by prayer of Mrs. Alice Stevens of Tillson. At the close of the devotional service, President, Mrs. Martha H. Bell called the institute to order. Roll call followed. All officers were present and each responded with a verse of scripture or some item of temperance work. Fourteen unions and one Young People's Branch were represented and responded in various ways.

The following committees were appointed: Courtesy, Miss Agnes Coutant, Marlborough; Miss Rachel Clarke, Milton; added to Resolution Committee, Mrs. W. H. Hare, Wallkill; Mrs. Sarah C. Pratt, Highland; Mrs. Graham Hurd, Clintondale; Mrs. Edward Schofield, Highland. A very cordial greeting was given by Mrs. Sarah C. Pratt, the president of the Highland union, welcoming the delegates and visitors to the community, church and home, and inviting them to visit the various places of interest. She urged the members to greater work saying that all organizations that succeed are the ones that work.

The Rev. George H. Schofield, pastor of the church, welcomed and gave the delegates a greeting on behalf of the churches of Highland. Mrs. William E. Rhodes, president of the Marlborough Union, responded for the delegates in a happy manner.

Several visitors were introduced. Mrs. Taylor, secretary of the Young People's Branch of Orange county, brought greetings from Orange county. Mrs. Chamberlin of Clinton Corners brought greetings from Dutchess county. Mrs. Palmer of New Paltz, who told a little of the hard fight but at last victory for temperance.

Mrs. Edward Schofield of Highland then gave a Bible reading. All joined in singing "Jesus Lover Of My Soul." A selection from the Psalter was read in concert and also the XLVI Psalm. Mrs. Schofield then led in prayer and gave some excellent thoughts on the scriptures read. After singing "Rock of Ages," Mrs. S. B. Taber of Kingston led in noon-tide prayer. Mrs. Webster Hare of Wallkill was appointed press reporter for the morning and Mrs. William Conine of Wallkill for the afternoon session, in the absence of the regular reporter. Mrs. Bell then spoke of the new goal, a 20 per cent advance in membership.

Mrs. Hendricks of Kingston, the county treasurer, told of having received \$72 from the mile of dimes. After the usual announcements the morning session closed with the doxology.

Highland union then entertained the visitors in the lecture room of the church with a bountiful repast, the tables being beautifully decorated with spring flowers.

STUDENTS' WORK A SHOW FEATURE

Placards Are the Product of High School Students' Skill in Drawing and Lettering.

High school students have contributed in no small measure to the interest of the automobile show with their placards designating the different exhibits. These are cards about 15 by 20 inches on which are poster representations of the cars with the names of the cars and the agency. Miss Dora, the instructor at the school, has also added several showing her skill.

Among the artists are Edwin A. Koch, Louis Silverman, Watson Wheeler, Gould Ganoung, Alphonsus Conway, Eugene Ryan, Watson Haines, James Dempsey, W. L. Longyear, C. S. Hornbeck, Nicholas Stock, Aubrey Arner, Robert Adams, Russell Dana and William H. Hunter.

Mr. Hornbeck has a striking card showing the National in a striking and faithful style while Mr. Koch has a McFarlan poster for Forestry and Davis that is well done. Mr. Longyear's Packard and Mr. Hunter's Pullman are finely executed and each of the other students has shown his skill to a marked degree in these cards all of which are now in place.

Mr. Dana has a Fiat in yellow while Mr. Arner's Reo is strikingly true to type as is Mr. Silverman's Chandler in blue. Mr. Conway's Paige deserves mention as do the other individual exhibits in these placards. But the public and the judges can decide on these and such is the excellence of the works that it looks as though the committee is bound to disagree from the beginning in picking out the best.

REO

REO

Yes, All The REOS Will Be There

NO TIME TO READ a lengthy ad in this big edition. Too many ads--too little time.

BESIDES, WHAT'S THE USE--this is the one week in the year when you can see them all under the same roof, side by side, as it were, and compare them point for point.

AND REOS ALWAYS BENEFIT by that kind of comparison. We Reo Folk invite it whenever possible.

SO THIS AD is just to assure you that all the Reo Touring Car models will be in the show.

WHY, WITHOUT REO, an automobile show would be like the play Hamlet--with Hamlet left out.

REO HAS BEEN FROM THE INCEPTION of automobile shows one of the chief attractions. Reo always occupies one of the choicest positions--prestige due to age and production.

AND IT'S GRATIFYING to know that the Reos added to their prestige this year--at the New York and Chicago Shows.

IF CROWDS INDICATE interest, then the Reo exhibit was the focusing point of the two shows.

HOW WILL YOU FIND THE REOS?--Oh, just go where the crowds of buyers are.

NO!--NOT THE MOB of curiosity seekers--those interested only in the novelties and freaks--that's only the side show.

THE REAL SHOW is the product of the old reliable, financially sound concerns--one of the leaders among which is Reo.

OUR DAILY PATTERN.

A Practical, Serviceable Combination.
1552—Ladies' Apron, with Sleeve Protector and Cap.

As here shown figured percale was used for this set of serviceable garments. The model is also suitable for gingham, chambray, sateen, percale, Iowa or seersucker. The apron is on good comfortable lines, and affords ample protection for the dress beneath. The sleeve protectors are a popular accessory and the cap is good to hold off the dust. At the same time it imparts a neat trim appearance. The pattern is cut in 3 sizes: Small, medium and large. It embraces all styles illustrated, and requires 5 1/4 yards of 36 inch material for the apron, 3/4 yard for the cap, and 1/2 yard for one pair of sleeve protectors, for a medium size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state size wanted.

You Are Invited to Attend Our Presentation of NEWSPRING MILLINERY For One Week, Beginning FRIDAY AND SATURDAY

BEAUTY competes with beauty in this Opening Exhibition of Millinery. There is variety, charm, color and novelty in an unending succession of versions. Every preference, every purse is provided for. Here are hats that cost little and hats that cost more; hats of simplicity and creations of magnificence, all adhering to the mandates of Dame Fashion.

We have marshalled together the daintiest and the most becoming style-creations of the world's fashion centers. There are masterpieces from Paris, exquisite and artistic; models from New York, fascinating in every detail; models from our own workrooms, gracefully designed and fashioned on the most approved lines. In the collection you will find every authoritative style for spring and early summer wear. And aside from the chic effects—which carry an air of distinction, we are pleased to announce that we are able to offer the most attractive values ever presented to discriminating women of Ulster County just before Easter.

Those ladies who have obtained an advance glimpse of our stocks have freely and frankly expressed admiration for our hats. Every woman of this city and vicinity is invited to attend our Opening and bring her friends. Try to come the first two days. Music by a Kingston orchestra will add interest to the occasion Saturday.

We take this opportunity to again remind the public of the fact that "The Paris" is under new management, that the sales force is new, and that the rule of ONE PRICE is now rigidly enforced.

KINGSTON, N. Y., MAR. 30, 1916.

In welcoming Governor Whitman, who arrives here this afternoon to open the Automobile Show, Kingston does well to lay aside political affiliations and to pay respect to the Governor as the chief executive of the greatest and richest commonwealth of the United States. For Governor Whitman, both as a citizen and a public official, Kingston and Ulster county have a warm place in their hearts. As citizen and official he has lived a clean life, untarnished by scandal of any sort and open only to such criticism as Governor Whitman's Americanism would lead him to urge upon every thinking citizen of the Empire State who takes an interest in public affairs; furthermore the Governor has urged and does urge every right-minded individual to take such an interest, to do his own thinking clearly and not to be afraid to express his opinion at the proper time and in the proper manner. Entirely aside from the fact that he is entitled to respect and honor by reason of his position, Governor Whitman is entitled to every evidence of honor for what he already has accomplished, in addition to which a warm welcome should be accorded to him for the friendly feeling which he has shown, repeatedly for Ulster county and of which his present visit furnishes additional evidence.

Tales of the Borgias, the Medici and other noted poisoners of their day come to mind for purposes of comparison with the exploits of Dr. Arthur Warren Waite, the youthful New York dentist who has confessed that he poisoned his father-in-law, John E. Peck, a wealthy resident of Grand Rapids, Michigan, and is under suspicion of plotting the death of other members of the Peck family, including his own wife, who inherited half a million dollars from her father. The Waite family, almost prostrated by the shock, say they do not seek to defeat justice, but it has been their belief that Dr. Waite has been mentally unbalanced for many years, a theory which apparently seems to gain credence among the surviving members of the Peck family, who do not wish the disgrace of having had a cold blooded murderer as a family adjunct. Under careful tutelage of expert criminal lawyers many wealthy murderers have escaped just punishment by acting out a carefully prepared plea of insanity. It may be satisfying to the Pecks to adopt the view that Dr. Waite was insane, but what moral obloquy must attach to the members of the Waite family who now profess to believe he has been mentally unbalanced for many years, yet failed to raise their voice in protest at the increased opportunity for dangerous practices which a man possessing such a mind would have by reason of marriage to a woman of great wealth. They are not disgraced if it shall be proved that Dr. Waite is mentally unbalanced, but they are disgraced if, having had knowledge of that fact, they permitted him to marry a young woman who in the eyes of society was considered a desirable "catch." Do families consider that phase of the matter or does society overlook it?

Environment cuts a far more conspicuous figure in the formation of character than heredity. Selfishness rather than insanity is a more likely motive for these coldblooded murders as shown by a comparison of the two Waite brothers and their characteristics. One of these brothers was in a position through his marriage where every reasonable wish could be gratified and only a perverted ambition could have called him from the straight and narrow path. The tennis-playing proclivities failed to make up for the character-eteriorating influences of the soft life that "Dr." Waite led as manifested in the revelations now featuring the newspapers. Compare with that the other brother, whose environment of hard work appears to have made his character unusually strong by

contrast. His brotherly affection is plainly subservient to his sense of justice, and his part in laying bare the double crime has been the most important contribution to the unraveling of the case thus far. Yet the pair are brothers, both with the same start in life. One worked hard for his living, the other lived softly and on the fruits of imposture. The tragic position of the straight brother is only surpassed by the strength of character he has exhibited in meeting the demands upon his sense of honor and justice.

LITTLE LAUGHS.

"Is there anything between Jennie and young Jones?" "Nothing that I know of, except poverty."—Baltimore American.

"You know, a penny saved is a penny earned." "That's the selfish view," replied the spendthrift. "When you let go of the penny, somebody else gets the chance to earn it."—Washington Star.

"What's the leading industry of 'Crimson Gulch'?" inquired the stranger. "Literature," replied Broncho Bob. "If you don't believe it look at this here bunch o' minin' prospectuses."—Washington Star.

"Take a good look at this ladder, my boy." "What for?" "And then remember that if it were possible to get to the top at a single bound there would be no need for the bottom rungs."—Detroit Free Press.

"He—But I asked you, dearest, to keep our engagement a secret for the present." She—"I couldn't help it. That hateful Miss Oldum said the reason I wasn't married was because no fool had proposed to me, so I up and told her you had."—Boston Transcript.

In His Line.
Harry Lander, the Scottish comedian, said at a dinner in New York:

"I know a German-American dentist, not yet naturalized, who was urged by his consul to go back home on a false passport and take up the cause of the fatherland."

"But what good could I do?" he said. "I'm only a dentist."

"A dentist? Then you're the very man for us," said the consul. "Think how useful you'd be in gas attacks."—Washington Star.

A Final Clearance.

"Before I agree to undertake your defense," said the lawyer, "you will have to tell me the whole truth. Did you embezzle the \$500 you are accused of having taken?" "Yes, sir," replied the accused man. "I'll not attempt to conceal the fact from you. I stole every penny of it."

A Tricky Chap.

A senator was talking about national preparedness. "The man who would make political capital out of such an important question as preparedness," he said, "is as selfish and tricky as the chap in the station bar. A chap hustled into a station bar. He had only a minute or so to catch his train. But the bartender was busy and the chap saw that he stood to lose out on being served. Two good men, each with whisky and soda before him, were conversing pleasantly before the bar. Well, what does this chap do but reach over, grab one of the whiskies and toss it off. The owner started back. 'How dare you?' he spluttered. 'The idea! Why, that wasn't your whisky!' 'Wasn't it?' said the chap. 'Then I guess this one must be mine, eh?' And he tossed off the other. 'Heaven's drink and dashed out and caught his train just as it was moving off.'—Washington Post.

Embarrassing the Teacher.

Jimmy giggled when the teacher read the story of the Roman who swam across the Tiber three times before breakfast.

"You do not doubt that a trained swimmer could do that, do you Jimmy?"

"No, sir," said Jimmy. "But I wonder why he didn't make it four and get back to the side his clothes were on."—London Opinion.

TWENTY AND TEN YEARS AGO.

Tramps set fire to barn on lowlands owned by Charles Merritt. Board of education decided to secure passage of bill authorizing purchase of lot on O'Neill street to erect proposed school.

Abram E. Smith—"Honest Abe"—arrested charged with violation of internal revenue laws.

March 30, 1906.—"The Magic Mirror" given by young people of Fair Street Reformed Church.

Floyd S. McKinstry died at Ridgewood, N. J.

UPTOWN BUSINESS SECTION'S GROWTH

With the converting of the Kelder residence on Fair street, next to the Ulster Garage, into a business house, the last residence in that section of the city has been turned over to business purposes. The uptown business section has gradually reached out until many of the finest residences have become surrounded with business houses and finally have themselves been converted into stores.

Only a short time ago the two blocks on Fair street between John and Pearl street boasted a number of homes all of which have been sold and made into business properties until now the Forsyth residence at Pearl street is the only remaining one. A short time ago the site occupied by the Warren building contained a home which was converted into the present structure.

The steady growth of the city is evident in all sections and is especially noticeable to the former resident who now occasionally visits. The Kelder property will be changed and altered so as to make it suitable for the tailoring business of Mr. Weisberg, who has bought the property. Offices will also be rented on the second floor.

BRANCH.

Branch, March 30.—James Van Valkenburg returned Tuesday from Kingston where he has been on business for a few days.

Mr. and Mrs. Harry Cole and son, Percy, spent the week end in the Branch with Mrs. Cole's parents.

Miss Elsie Joslin and Miss Kathleen Kelly called on Mrs. William Van Valkenburg Saturday afternoon. Uriah Satterlee was a pleasant caller at the Branch Monday.

Fishing season opens up Saturday, but no creek watchers on hand yet. One of them got started and upset with his moving goods and only got as far as Claryville as yet. Our roads are very bad and they will do well if they get moved in on time.

Mrs. Rachel Kane spent the week end in Kingston and Big Indian on business.

Archie Kane with his wife are stopping with their grandmother, Mrs. Rachel Kane, for some time. Gilbert Van Valkenburg is making a two weeks' visit in Grand Gorge with relatives and friends.

Four creek watchers this summer and they all have families. Who says we won't have neighbors?

Oscar Satterlee, who sold his property last fall to Mr. Forstmann, started Monday to look for a place. Mr. Satterlee expects to move the last of April or first of May.

Mrs. Matthews is very ill, with no hopes for her recovery. M. Van Denmark is looking for a man to drive team as his teamster quit and has hired out to work for Forstmann this summer.

WEST SAUGERTIES.

West Saugerties, March 30.—Jesse Delamater is home from Pompton Lakes, N. J., where he has been for the last couple of months.

Prior Hommel and family, who used to reside here, passed through here to Platte Clove, where he has a position for the season on Mrs. Pomeroy's estate. They spent the winter in Catskill.

William Snyder, Burton Winne, Henry Bach and James Snyder spent Tuesday of last week in Saugerties. Several friends attended the funeral of Larry Van Wart at Blue Mountain Church on Sunday.

The roads between here and outlying towns are almost impassable and some walked from here to Saugerties in preference to riding.

GREATEST MOVING PICTURE.
"Birth of a Nation" Will Appear in K. O. H. Tonight.

The attraction at the opera house will be D. W. Griffith's mighty spectacle, "The Birth of a Nation." The engagement begins tonight and is for three nights and two matinees. This is the great production which is still making a record run of over 600 performances in New York city where it created the sensation of the season. It is estimated that over two million people have seen the production since it was originally brought out in the east. It has other sensational runs in Boston, Chicago, San Francisco and Los Angeles to its credit.

Mr. Griffith was eight months making this wonderful story. He employed 18,000 people and 3,000 horses and the total cost of the work reached the enormous figure of half a million dollars.

The story is one of romance and adventure linked to the most vital periods of American history. It records its facts with the rapidity of lightning and yet never departs from the fundamentals of true drama. Love and conflict are its basic theme but a myriad of details illumine the narrative and lift it so far beyond anything our stage has ever known that the usual avenues of comparison do not offer a road to follow in this instance. Linked with the drama is an operatic score which carries recurrent themes with every vital scene and character in the epic. This wonderful score which is synchronized to the drama is in itself an incomparable work of art. An orchestra of twenty travels with the attraction to handle the musical features of the presentation.

That part of history dealing with the rise and fall of the slavery problem is the vital spark upon which Griffith has built his story. The conflict which this question caused is reproduced in great battles and in all the thrilling things which are a part of war.

WAITING TO HEAR FROM AMBASSADOR

By Telegraph to The Freeman. 30.—The United States is preparing to act in the latest submarine crisis with Germany just as soon as a complete report received from Ambassador Gerard at Berlin. The ambassador is making direct inquiry into whether the series of marine disasters to neutral and belligerent shipping was authorized, either by secret orders or by a new policy adopted by the admiralty. Officials were hopeful that his complete report would reach here not later than early to-morrow, so that it can be considered at the regular cabinet meeting.

Should Germany disavow responsibility it is understood that the state department has compiled a mass of evidence, which in the instances of the steamers Sussex and Englishman conclusively seems to show that the vessels were torpedoed. In fact, Ambassador Page at London not only reports that all of the evidence so far secured by him places the blame for the Sussex on a German torpedo, but he also stated that he has been officially assured that the submarine which sank the Sussex fired two torpedoes which missed a British destroyer enroute to the rescue of the Sussex victims.

Officials declared that this government will accept the "burden of proof" if it is compelled to do so, and will be in a position to demonstrate that Germany violated international law in a number of recent instances. It is also asserted, both at the state department and sources close to the White House that a definite policy which calls for the breaking of diplomatic relations has been decided on should Germany not meet views of the United States. It is expected, that before the break actually is ordered, the president will take congress and the country into his confidence, and will make public all of his evidence now withheld by the state department.

Count von Bernstorff, the German ambassador was back at the embassy to-day insisted he had received no word whatever from Berlin dealing with the sinking of the Sussex or any other ship.

It was plain from the attitude of the ambassador that he did not believe that any of the recent shipping disasters in French and British waters were due to submarines. He believes that the recent gales have broken loose mines from the British mine fields, and that the vessels lost have struck them.

SOCONY KEROSENE

The most serious danger for the present is that the New England coal supply may be so curtailed as to bring about a hardship upon those who have not enough on hand to last through the winter. For various reasons, it is the exceptional consumer who has a sufficient stock of coal in the bins at this time, so that practically all the people this side of the Hudson river are threatened with the shortage except in so far as relief may come by water. The situation has become so grave that it should be looked into with a view to assist the railroads to escape from the confusion without causing widespread distress.

IT IS ALMOST A MIRACLE! SEE IT! SEE IT! THE GREAT AMERICAN PLAY AT LAST!

FESTIVAL CHORUS TO MEET SOON

W.C.T.U. INSTITUTE AT HIGHLAND

For some time the singers in this city have been asking when the rehearsal of the big chorus for this year's Spring Festival would begin, and what the Oratorio would be, and lots of other questions, showing by their interest their desire to take up the work again. Just as many more people who attended the Creation last year, have asked, also, about this year's festival, and the Kingston Symphony Society is glad to be able to announce the date of the first rehearsal.

The oratorio to be given will be Mendelssohn's great Oratorio of Elijah. This work is rarely beautiful both as to musical composition and text and is a work to hold the interest of both the student who takes part in the chorus and of those who hear the work. Mr. Coke-Jephcott, who so admirably and successfully conducted the Oratorio of The Creation last year, is especially prepared to conduct this oratorio, and the Symphony Orchestra will, as last year, furnish the instrumental part of the work. The soloists will be announced later.

The out-of-town choruses that joined in the festival last spring, considerably augmented, and having for the most part worked all winter, will take up the work with the Kingston chorus. It is expected that there will be other out-of-town choruses formed, as the wish to join in the festival has been expressed in other villages than those sending delegations last year.

Now as to that first rehearsal. On Wednesday evening next, April 26th, in Symphony Hall in the Crosby building, corner of Wall and John streets. All persons desiring to register may do so, beginning at seven o'clock. Mr. Coke-Jephcott will be at Symphony Hall at eight o'clock to meet the chorus, and all present will have some idea of the work. As large a registration as possible is urged for this evening, in order that the rehearsals may begin promptly and continue regularly until the time of the festival which will be given the first week in June. Each person registering will be asked to pay fifty cents for their score. At the close of the festival any one wishing to return a score in good condition may do so, and his money refunded. But it is necessary that the scores should be paid for when the singer registers. It is hoped that the men of the city who like singing and can sing, will avail themselves of the privileges of this festival chorus and join in time to take up the work at the first rehearsal.

PARENTS INTERESTED.

Enthusiastic Parent-Teachers' Association Meeting in School No. 7.

On Tuesday afternoon of this week an enthusiastic and interesting Parent-Teachers' Association meeting was held at No. 7 School on Crown street. The program for the meeting included a "Question and Answer Box," which was productive of valuable discussion of various pertinent matters. Mrs. M. J. Michael gave a talk on "Food Values," which was highly appreciated by the parents as well as teachers. Miss Gertrude Bruyn pleased all with her singing of "A Japanese Maiden." Mrs. Essenden gave a spirited talk on "Self Control," that was exceptionally good, and Miss Bruyn sang again, charmingly, "An Irish Lullaby." At the close of the program, tea and water were served. Little motto cards had been printed for the club and were for sale, the proceeds to go for the uses of the club, and a neat little sum was realized from their sale, with many more to be sold.

On Wednesday afternoon and evening Colonel French gave his exceptionally fine illustrated lecture on "The Yellowstone Park," at the same school, to a deeply interested and delighted audience both in the afternoon and evening. The proceeds from these lectures will go toward the purchase of art pictures for the school. At the evening lecture, the Parent-Teachers' Association sold ice cream and cake, adding good bit to their treasury by the means.

Delightful Dutch Sale.

The members of the Henrietta Wynkoop Guild of the First Dutch Church will hold a delightful Dutch Sale in the chapel on the afternoon and evening of Tuesday, April 11. No admission will be charged either afternoon or evening, tea and water will be served in the afternoon by captivatively Dutch-costumed maidens. In the evening, these same maidens will serve ice cream and cake and there will be a Dutch entertainment. Many fancy articles will be for sale both afternoon and evening, unless of course they are all sold in the afternoon, which might easily happen.

ATWOOD.

Atwood, March 30.—Service on Sunday, April 2, at 2:30 p. m. Mrs. H. Bush is visiting relatives at West Hurley.

The W. W. were pleasantly entertained by Mrs. Stephen Bush on Wednesday.

Mrs. William Winchell is still under the care of Dr. Kemble.

Mr. and Mrs. C. N. Freer of Kensington and Bertie Wood are spending a few days at their home.

Services in St. John's.

At the Friday evening service, the preacher will be the Rev. James Cameron, rector of All Saints' Church, Rosendale. This will be the first service at which Harry P. York, who has just become organist and choir master, will be at the organ. The rector, Rev. Charles P. Kennedy will preach tonight in Trinity Church, Saugerties. No meeting of the Episcopalian Church tonight.

(Official Report.)

A stormy day did not affect the zeal and enthusiasm of the white ribbons, who catered in annual institute at the Presbyterian Church, Highland, on Wednesday morning, nor did it much affect the number of delegates who attended.

The church had been artistically decorated for the occasion. White ribbon bows and testoons of ribbon and large masses of cedar and Easter lilies and ferns decorated the platform on which also were placed large portraits of Frances E. Willard and the late secretary of Ulster county, whose home was in Highland, Mrs. C. H. Ganse.

A number of banners and posters used by the women in their work were displayed in various parts of the church, and a prominent place given to the stars and stripes, for these women are intensely patriotic and never fail to have the flag in evidence.

The institute opened with a devotional service conducted by Mrs. Bloom of Wallkill county, superintendent of evangelistic work. All joined in singing "How Firm a Foundation." The leader read part of John XV, followed by prayer in Mrs. Alice Stevens of Tillson. At the close of the devotional service, President, Mrs. Martha P. Bell called the institute to order. Roll call followed. All officers were present and each responded with a verse of scripture or some item of temperance work. Fourteen unions and one Young People's Branch were represented and responded in various ways.

The following committees were appointed: Courtesies, Miss Agnes Count, Marlborough; Miss Rachel Clarke, Milton, added to Resolution Committee, Mrs. W. H. Hare, Wallkill; Mrs. Sarah C. Pratt, Highland; Mrs. Graham, Hurd, Clintondale; Mrs. Edward Schofield, Highland.

A very cordial greeting was given by Mrs. Sarah C. Pratt, the president of the Highland union, welcoming the delegates and visitors to the community, church and home, and inviting them to visit the various places of interest. She urged the members to greater work saying that all organizations that succeed are those that work.

The Rev. George H. Schofield, pastor of the church, welcomed and gave the delegates a greeting on behalf of the churches of Highland. Mrs. William E. Rhodes, president of the Marlborough Union, responded for the delegates in a happy manner.

Several visitors were introduced. Mrs. Taylor, secretary of the Young People's Branch of Orange county, brought greetings from Orange county. Mrs. Chamberlin of Clinton Corners brought greetings from Dutchess county. Mrs. Palmer of New Paltz, who told a little of the hard fight but at last victory for temperance.

Mrs. Edward Schofield of Highland then gave a talk on "The Love of My Soul." A selection from the Psalter was read in concert and also the XLVI Psalm. Mrs. Schofield then led in prayer and gave some excellent thoughts on the scriptures read. After singing "Rock of Ages," Mrs. S. D. Taber of Kingston led in noon-tide prayer. Mrs. Webster Hare of Wallkill was appointed press reporter for the morning and Mrs. William Comine of Wallkill for the afternoon session. In the absence of the regular reporter, Mrs. Bell then spoke of the new goal, a 20 per cent advance in membership.

Mrs. Hendricks of Kingston, the county treasurer, told of having received \$75 from the mile of dimes. After the usual announcements the morning session closed with the doxology.

Highland union then entertained the visitors in the lecture room of the church with a bountiful repast, the tables being beautifully decorated with spring flowers.

 that Mrs. Alfred Weise has gone to
 Kingston City Hospital for treat-
 ment under the care of Dr. Chandler
 and we hope she will soon return
 home again.

E. Hayes visited Kingston Mon-
 day.

Mrs. Oliver Dietz spent Monday
 in Kingston.

Ethel Bodley spent Tuesday in
 Kingston.

Mrs. John Dietz left her daugh-
 ter's to spend a few days in Kings-
 ton.

Mr. and Mrs. James Robinson of
 New Hamburg were on the hill
 calling on Ed Bodley over the week
 end.

Mrs. Morgan Stokes of Rhinebeck
 called on friends the past week.

Mrs. Hannah Dietz has returned
 home after spending some time at
 West Camp.

Mr. and Mrs. Moses Stokes of
 West Camp called on Mrs. Ed Bod-
 ley one day the past week.

Chris Stokes spent a few days at
 West Camp with his son, Moses,
 last week.

Floyd Dietz and family were
 guests of their parents over Sun-
 day.

Mr. and Mrs. Everett Walton are
 packing their furniture getting
 ready to move to Kingston, where
 Mr. Walton secured a good position.

The traveling library of 25 volu-
 mes loaned by the State of New
 York through the Educational Ex-
 tension Division has been received.
 Books are free of charge and those
 wishing to read them should call on
 Mrs. Harry D. Freer, librarian.

Whiteport.

Henry Bailey, who has been con-
 fined to his home for the past six
 weeks with a broken arm, is able to
 be about again.

Emile Burri, who purchased from
 Joe Grethler his estate on the state
 road, has arrived from Mt. Vernon
 and is occupying the place for the
 summer.

Maple Hill.

Leo Jordan, after spending a few
 weeks with his mother in this place
 has returned to Jersey City.

Edward Bradley butchered two
 hogs for Mrs. M. Jordan Monday.

Edward Bradley is cutting cord-
 wood for M. Scully.

The mild days which spring has
 brought us are making the snow
 fast disappear. The bluebirds and
 robins are rejoicing over the advent
 as well as we, and we are sure no-
 body will be more pleased when the
 last of the white mantle disappears.

Artistic Window Display.

One of the most attractive and
 artistic window displays in a long
 time is that at the big store of Stock
 & Cordts on Broadway. One win-
 dow is fitted up as a room with a
 fireplace in front of which stands an
 inviting davenport and several easy
 chairs, while in the highest author-
 ity, however, that Judge Brinnier is
 not going to give a concert. The
 two pianos it might be added were
 recently levied on by City Marshal
 Hoag and stored in the office for safe
 keeping.

Dusty Roads Along Hudson.

New Windsor, March 30.—There
 is little frost in the roads. The river
 road to New Windsor is dried out
 considerably and is dusty in some
 places. This road in other years
 has been a mire of mud and takes
 weeks to dry out, but three or four
 warm days this week have done the
 trick. Teams are at work hauling
 gravel.

THEY SAY.

Express companies are reaping a
 harvest on freight consigned to New
 England points upon which there is
 an embargo at railroad freight offices
 at the present time. A large num-
 ber of shipments of household effects
 of workers going from Ulster county
 points to Bridgeport, Conn., and oth-
 er munitions centers in New England
 are being handled by the express men
 together with what would be light
 freight under ordinary conditions.
 The express companies are about the
 only avenues left for entry into the
 sections named and their business has
 been swelled in proportion.

Miss Doux, instructor in drawing
 at the high school, is assured of some
 complimentary remarks concerning
 her course judging from the senti-
 ments expressed by Automobile Show
 exhibitors on the work of students
 who drew the poster cards for the
 armory this week. Representation of
 machinery on cards of this character
 is most difficult as the lines do not
 lend themselves to any artistic free-
 dom but the cards generally are well
 worth while and deserve the admira-
 tion showered upon them.

Incidentally The Freeman's auto-
 mobile edition was the subject of ad-
 miring comment about town yester-
 day and today. It was the most com-
 plete effort of its kind that has
 marked any of the newspaper editions
 in connection with automobile shows
 in the Hudson Valley and every one
 of its 26 pages had something of in-
 terest to the automobile trade as well
 as to the news-reading public.

"Stop, Look and Listen" signs are
 not in evidence at the show but cer-
 tainly the class of exhibits compels
 such action without any printed
 warnings being necessary. Some of
 this is going to be fatal to visitors for
 there is something about these exhibi-
 tions that sells cars even to the
 man who didn't intend to buy.

Official spring came several days
 ago, robins, bluebirds and other
 signs of spring have been noted but
 the never-falling sign of spring did
 not make its appearance until yester-
 day when the first hand organ or
 burdy-gurdy made its appearance on
 the uptown streets.

A Walden young man is back from
 Bridgeport, Conn., with the accent
 on the abbreviation, and said that
 after three days' search for work he
 failed to locate anything to do. He
 is back at the Walden Knife Works
 with other young men who sought
 fame and fortune in munitions man-
 ufacture. His experience, he says, is
 no small lesson of the dependence to
 be placed upon booms.

 E. Jenkins of the Methodist Church

Two Fine Window Displays.

Two beautiful spring window dis-
 plays are those of Van Wakenen's
 and the Up-to-Date Company, the
 latter commencing their spring
 fashion review today and continuing
 the remainder of the week.

Honk of the Eagle is Heard.

An eagle was sighted soaring over the city this afternoon, the bird being believed to be the same recently sighted over Lake Katrine. It is the first eagle sighted in this section of the Hudson Valley in years. Ira Britt and the advertising representative of The Freeman saw the bird and another spectator claims the bird hooked before he flew out of sight.

Life and Character Reading MARCH 30

This horoscope shows persons in public life with this birthdate are generous to a fault. They make great deal of money and they spend it in an extravagant manner. To "live while they live" is a favorite expression with them.

At the end we often find them bankrupt and sometimes objects of charity.

Born on this date persons will be energetic, ambitious, eager to attain, fond of art, lovers of music and the theater.

This birthdate gives many actors and actresses the success of the stage and the concert hall.

These people are subject to nervous prostration because of their intense nature.

This date favors the renting of halls, the selling and buying of theaters and the finding of positions in large publishing houses, and the renting of rooms and furnished apartments through The Freeman Want Ads.

SPRING ADV. WRITING.

REACHING out for Spring trade is now the order among live merchants. Let me show you that newspaper readers always appreciate the unusual in advertising. A little clever ingenuity in display, combined with a carefully worded appeal, such as I employ, can be made to reach the eye and hold the attention of many readers who might not otherwise be interested. Why not give my advertising service a trial? George M. Zellmer, care of Kingston Freeman.

REO

Yes, All The REOS Will Be There

NO TIME TO READ a lengthy ad in this big edition. Too many ads--too little time.

BESIDES, WHAT'S THE USE--this is the one week in the year when you can see them all under the same roof, side by side, as it were, and compare them point for point.

AND REOS ALWAYS BENEFIT by that kind of comparison. We Reo Folk invite it whenever possible.

SO THIS AD is just to assure you that all the Reo Touring Car models will be in the show.

WHY, WITHOUT REO, an automobile show would be like the play Hamlet--with Hamlet left out.

REO HAS BEEN FROM THE INCEPTION of automobile shows one of the chief attractions. Reo always occupies one of the choicest positions--prestige due to age and production.

AND IT'S GRATIFYING to know that the Reos added to their prestige this year--at the New York and Chicago Shows.

IF CROWDS INDICATE interest, then the Reo exhibit was the focusing point of the two shows.

HOW WILL YOU FIND THE REOS?--Oh, just go where the crowds of buyers are.

NO!--NOT THE MOB of curiosity seekers--those interested only in the novelties and freaks--that's only the side show.

THE REAL SHOW is the product of the old reliable, financially sound concerns--one of the leaders among which is Reo.

MENKE'S DAILY SPORTING LETTER

(By Frank G. Menke.)

New York, March 30.—The "Texas Tommy Punch" was conceived two years ago when Johnny O'Leary, lightweight champion of Canada, watched some "Texas Tommy" dancers in "Prisco." It came in, to being a short time later in St. Paul when O'Leary tried it out on Mike Gibbons—and nearly floored the "St. Paul Ghost."

The Canadian battler has used the punch for the past two years—but not until he executed the trick three times in a row in Philadelphia recently has it come to the full attention of pugilistic fans.

A. W. Maxwell, sporting editor of the Philadelphia Evening Ledger, tells us it is the cleverest ring trick he has seen pulled in many years.

How New Punch is Used.

"When O'Leary clinches with an opponent," said Maxwell, explaining the new "bacon producer," "he does not wait to be parted by the referee. Instead he grasps the back part of the arm nearest to him, at a point above the elbow, and while stepping back, turns the victim half way around."

"O'Leary puts a bit of violence into the twist. As a result, the other fellow is thrown off balance. While he is trying to regain it, O'Leary grabs the nearest arm again and whirled the fellow around completely. That brings the victim face to face with O'Leary and while he is trying to recover himself, O'Leary flashes out a wallop for the jaw."

"The Canadian hits with either hand and carries slumber in oth. In looking over O'Leary's record I find that rarely has any man remained on his feet after being given the twist and the 'Texas Tommy' punch."

O'Leary Discusses Discovery.

O'Leary, in discussing the new punch, and how he came to discover it, said:

"I dropped in at a dance hall in San Francisco two years ago and watched the fellows spin their girls in the Texas Tommy and then catch them before they fell. I got the fever, jumped onto the floor with my girl and soon we were doing the 'twist.' I danced the 'Texas Tommy' nearly every night for a month and then went to St. Paul to work out for some fight I had there."

"While in St. Paul, I used the 'Texas Tommy Twist' by accident and the funny part of it is that Mike Gibbons was the victim. Mike and I were boxing in the gymnasium and we fell into a clinch. I wasn't thinking of anything in particular, but when I grabbed Mike's arm to protect myself, unconsciously I whirled him the same as I did the girls in the Frisco dance hall. Mike spun around and before he recovered I slammed him one on the jaw. The blow almost floored Gibbons and he backed away with both hands covering his face."

Nearly K. O.'s Ghost.

"What's the matter with you?" he demanded. "Where did you get that awful wallop and what stunt are you pulling on me?" I told him

BE SURE YOU PLAN TO ATTEND THE KINGSTON AUTOMOBILE SHOW

MARCH 30th AND 31st AND APRIL 1st, 1916

GOV. CHAS. S. WHITMAN will open the show on THURSDAY, MARCH 30th. Francis M. Hugo, Secretary of State, will speak on Friday evening, March 31. Judge Wm. D. Cunningham, of the court of claims; Hon. Albert Callan, of Valatie, author of the famous automobile law which bears his name, will speak on the last night of the show. The railroads will run special trains and Kingston's stores will offer great bargains in special sales during show week.

It was a mistake, but Mike insisted that I try it again. I did so and Gibbons fell for it again. I really believe that if we didn't have on big gloves I would have knocked Gibbons out. I tried it many times that afternoon and scored a knockout with it in my first contest in St. Paul.

"It is a hard blow to stop and there is no fixed defense for it. I take a long swing before letting the punch go, and if it lands, there is quite a little force behind it. The opponent cannot 'cover up' as I have hold of one of his arms."

Spencer's Baseball Team.

On Tuesday afternoon, March 28, 1916, a meeting was held by the students of Spencer's Business College to organize a baseball association for the season of 1916. The following officers were elected: Fred C. Stout, manager; Walter Kublan, assistant manager; Earl DeWitt, captain; William P. Rafferty, treasurer; Simon Snyder, secretary. The baseball team that represented Spencer's last year won the majority of games and proved as strong as other school teams. Practice will begin as early in the month of April as the weather will permit. There are about twenty-five candidates who intend to try out for the team, from which the best players will be picked. This year's team also appears to be a promising one. Through the efforts of the students and Principal Kelly, the 1916 team ought to make a good showing with nearby schools and colleges.

FOWL NOISES MAR STUDIES

Scholars at School No. 7 Also Pestered by Flies Which Enter the Unscreened Windows—Complaint Made to Board of Health.

It is understood that a complaint has been lodged with the board of health to the effect that the quacking of ducks and the crowing or roosters in the vicinity of School No. 7 interferes with the study period, and that also during the summer the scholars are pestered by flies that enter through the unscreened windows. The complaint it is said will be brought to the attention of the board for action at its next regular meeting.

From what can be learned there are some chickens and ducks kept by householders living near the school. These fowl have a habit of quacking and crowing at the most inconvenient hours instead of waiting until school is out. Efforts are being made, however, it is said to educate the fowl to abstain from making undue noise during school hours and some owners are said to be working nights perfecting an appliance of the nature of a silencer to attach to the vocal apparatus of the fowl. Just what success the inventor is meeting is not known as yet.

There is also said to be uncovered manure piles in the vicinity of the school which afford an excellent breeding place for flies. As the board of education has so far failed to provide the school with window screens the flies seem bent on entering the school flying through the open windows during the hot summer days.

It is said that some parents of the pestered scholars are thinking of asking the education board to include in the school curriculum a course on "Swat the fly" and that each scholar be allowed a credit mark for the amount of flies killed. A study period of a quarter of an hour each day they believe would be enough to inculcate the principles of fly swatting in the scholars' minds.

The parents believe that it is rather hard on the child to have a fly alight on his paper when he is figuring up a long list of numbers and leaving in their wake decimal points where decimals were not.

Just what action will be taken in regard to the fowls and the flies is not known, but it would not be a bad idea for the board of education to furnish the school with window screens.

Later Day Sayings of Benjamin Franklin

"He that waits upon fortune is never sure of a dinner," said old Dr. Benjamin Franklin in his famous almanac and time and experience prove the truth of this saying.

The man, or woman, who is always saying he, or she is waiting for his, or her, "ship to come in," is the man, or woman, who is usually a failure. Success and fortune do not come that way in this world. They must be sought and courted and worked for, just like a man courts his sweetheart.

The sluggard never reaches the goal of success, because he is always waiting for good luck to pop out of the sky and hit him.

There is, however, an invention of comparatively recent years, which almost makes fortune drop out of the sky and hit you and that invention is the Want Ad.

This wonderful little discovery of newspaper enterprise practically brings fortune to your door and begs you to seize it. The only thing you have to do is to keep in touch with this wonderful catalogue of current opportunity by reading the Want

Columns daily and using them often, then, when the chance you have so long desired appears in the Want, why grab it and your future is secure.

Look over the Want Columns today—any day—and see how varied and profitable are the wants and needs and opportunities offered. There is not a sphere of human enterprise and energy which is not covered in the Want Columns. Each one has its particular nook and corner—there, for instance, are the following classifications: Automobiles for rent, sale, or exchange; real estate in all locations and open for any sort of deal; rooms for rent, board, business opportunities, domestic and office helpers and positions—all these and dozen of others you will see any time you pick up the newspaper and turn to the Want Columns.

This comes pretty near to bringing fortune to your door, but, of course, you must read and use the Want Ads and you must have ability and enterprise and ambition and be industrious.

Think well on the above words of old Dr. Benjamin Franklin and then, when next you start to read your paper, turn to the Want Columns and see if opportunity does not present itself to you in many different ways through the Want Ads.

OUR DAILY PATTERN.

A Practical, Serviceable Combination.
1552—Ladies' Apron, with Sleeve Protector and Cap.

As here shown figured percale was used for this set of serviceable garments. The model is also suitable for gingham, chambray, saten, percale, lawn or seersucker. The apron is on good comfortable lines, and affords ample protection for the dress beneath. The sleeve protectors are a popular accessory and the cap is good to hold off the dust. At the same time it imparts a neat trim appearance. The pattern is cut in 3 sizes: Small, medium and large. It embraces all styles illustrated, and requires 5 1/4 yards of 36 inch material for the apron, 3/4 yard for the cap, and 1/4 yard for one pair of sleeve protectors, for a medium size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department. The Freeman, Rondout, N. Y. Be sure to state size wanted.

You Are Invited to Attend Our Presentation of NEWSPRINGMILLINERY For One Week, Beginning FRIDAY AND SATURDAY

BEAUTY competes with beauty in this Opening Exhibition of Millinery. There is variety, charm, color and novelty in an unending succession of versions. Every preference, every purse is provided for. Here are hats that cost little and hats that cost more; hats of simplicity and creations of magnificence, all adhering to the mandates of Dame Fashion.

We have marshalled together the daintiest and the most becoming style-creations of the world's fashion centers. There are masterpieces from Paris, exquisite and artistic; models from New York, fascinating in every detail; models from our own workrooms, gracefully designed and fashioned on the most approved lines. In the collection you will find every authoritative style for spring and early summer wear. And aside from the chic effects—which carry an air of distinction, we are pleased to announce that we are able to offer the most attractive values ever presented to discriminating women of Ulster County just before Easter.

Those ladies who have obtained an advance glimpse of our stocks have freely and frankly expressed admiration for our hats. Every woman of this city and vicinity is invited to attend our Opening and bring her friends. Try to come the first two days. Music by a Kingston orchestra will add interest to the occasion Saturday.

We take this opportunity to again remind the public of the fact that "The Paris" is under new management, that the sales force is new, and that the rule of ONE PRICE is now rigidly enforced.

GREATEST MOVING PICTURE

"Birth of a Nation" Will Appear in K. O. H. Tonight

The attraction at the opera house will be D. W. Griffith's mighty spectacle "The Birth of a Nation." The engagement begins tonight and is for three nights and two matinees. This is the great production which is still making a record run of over 600 performances in New York city where it created the sensation of the season. It is estimated that over two million people have seen the production since it was originally brought out in the east. It has other sensational runs in Boston, Chicago, San Francisco and Los Angeles to its credit.

Mr. Griffith was eight months making this wonderful story. He employed 1,000 people and 3,000 horses. The total cost of the work reached the enormous figure of half a million dollars.

"The Birth of a Nation" is one of romance and adventure linked to the most vital period of our nation's history. It records the rise and fall of the Ku Klux Klan and the story of the true drama of the civil war and the reconstruction period. The film is a masterpiece of detail, illuminating the history and lifting it far beyond anything our stage has ever known. That the usual avenues of comparison do not offer a road to follow in this instance is linked with the drama is an epic score which carries recurrent themes with every vital scene and character in the epic. This wonderful score which is synchronized to the drama is in itself an incomparable work of art. An orchestra of twenty travels with the attraction to humiliate the musical features of the presentation.

That part of history dealing with the rise and fall of the slavery problem is the vital spark upon which Griffith has built his story. The conflict which this question caused is produced in great battles and in all the thrilling things which are a part of our history.

FREEMAN ONE-CENT-A-WORD "WANT" ADLETS

WAITING TO HEAR FROM AMBASSADOR

By Telegram to The Freeman.
Washington, March 30.—The United States is preparing to act in the latest submarine crisis with Germany just as soon as a complete report received from Ambassador Gerard at Berlin. The ambassador is making direct inquiry into whether the series of marine disasters to neutral and belligerent shipping was authorized, either by secret orders or by a new policy adopted by the admiralty. Officials were hopeful that his complete report would reach here not later than early to-morrow, so that it can be considered at the regular cabinet meeting.

Should Germany disavow responsibility it is understood that the state department has compiled a mass of evidence, which in the instances of the steamers Sussex and Englishman conclusively seems to show that the vessels were torpedoed. In fact, Ambassador Page at London not only reports that all of the evidence so far secured by him places the blame for the Sussex on a German torpedo, but he also stated that he has been officially assured that the submarine which sank the Sussex fired two torpedoes which missed a British destroyer enroute to the rescue of the Sussex victims.

Officials declared that this government will accept the "burden of proof" if it is compelled to do so, and will be in a position to demonstrate that Germany violated international law in a number of recent instances. It is also asserted, both at the state department and sources close to the White House that a definite policy which calls for the breaking of diplomatic relations has been decided on should Germany not meet views of the United States. It is expected, that before the break actually is ordered, the president will take congress and the country into his confidence, and will make public all of his evidence now withheld by the state department.

Count von Bernstorff, the German ambassador was back at the embassy to-day insisted he had received no word whatever from Berlin dealing with the sinking of the Sussex or any other ship.

It was plain from the attitude of the ambassador that he did not believe that any of the recent shipping disasters in French and British waters were due to submarines. He believes that the recent gales have broken loose mines from the British mine fields, and that the vessels lost have struck them.

SAFEST and BEST

The most serious danger for the present is that the New England coal supply may be so curtailed as to bring down-right hardship upon those who have not enough on hand to last them through the winter. For reasons, it is the exceptional consumer who has a sufficient stock of coal in the bin at this time, so that practically all the people this side of the Hudson river are threatened with the shortage except in so far as relief may come by water.

The situation has become so grave that it should be looked into without delay by the public authorities with a view to assist the railroads to escape from the confusion without causing widespread distress.

The Friendless Alarm Clock

We respect an alarm clock—but it has very few real friends. It is a shining example of the type of reminder that compels rather than persuades.

People don't like to be influenced by alarm clock methods. They prefer the advice of friends.

It is the element of personal friendliness that distinguishes the newspaper from other publications.

It is a welcome, sought after visitor in the home. Its advertising is presented as a friend introduces a stranger.

And it gets that consideration that makes it valuable.

SAUGERTIES.

Saugerties, March 30.—Our Meth-
 odist friends are not satisfied with
 the minister assigned them at the
 recent conference and are endeavor-
 ing to secure one more acceptable.
 It is to be regretted that this large
 and prosperous congregation, who
 are contemplating the erection of a
 fine new church building, should not
 have a pastor of their choice.

Samuel Goldberg, manager of the
 Sulzberger Beef Co., has purchased a
 Ford runabout.

A. Vogt, a local auto dealer, has
 sold and delivered a five passenger
 Chevrolet car to Anthony Schwab of
 Ulster avenue.

 moving into the George Ennis house
 on West Bridge street.

The Rev. Charles Kenney of St.
 John's Church, Kingston, will preach
 the Lenten sermon at Trinity Epis-
 copal Church this evening.

 Bridge street has received a valu-
 able Boston terrier. The canine
 came from Boston, Mass.

 ent for The Freeman, who has been
 confined to his home on West Bridge
 street for the past two months by
 illness, is able to be out again.

Roswell Ingersoll of Shokan has
 entered the employ of James O.
 Winston, at the Saugerties farm.

 rival of a little girl at their home
 Monday morning, March 27.

 Walton for the summer.

 is stopping in Kingston, is not feel-
 ing very well. She has the sym-
 pathy of all the neighborhood.

There will be prayer service at
 the residence of E. Hayes on Sun-
 day evening at 7:30. All are wel-
 come.

Poor Jen, her dog Roxey is sick,
 and Jen is worrying very much
 afraid she will lose him. She has
 our sympathy.

Mr. and Mrs. Robert Freer of
 Marlborough were guests of Mont-
 gomery Dietz over the week end.

Miss Ethel Dietz has secured a po-
 sition in Kingston and has taken
 board in the city.

We are pleased to report Ed Bod-
 ley is improving under the skillful
 treatment of Dr. Hasbrouck.

We are sorry to have to report
 that Mrs. Alfred Weise has gone to

 ment under the care of Dr. Chandler
 and we hope she will soon return

 Kingston.

Mrs. John Dietz left her daugh-
 ter's to spend a few days in King-
 ston.

 hogs for Mrs. M. Jordan Monday.

 wood for M. Scully.

The mild days which spring has
 brought us are making the snow
 fast disappear. The bluebirds and
 robins are rejoicing over the advent
 of spring and we are sure no-
 body will be more pleased when the
 last of the white mantle disappears.

Artistic Window Display.

One of the most attractive and
 artistic window displays in a long
 time is that at the big store of Stock
 & Corliss on Broadway. One win-
 dow is fitted up as a room with a
 fireplace in front of which stands an
 inviting davenport and several easy
 chairs, while in the other window is
 shown Dorothy's bedroom suite. The
 store has exceptionally large display
 windows and the firm carries the
 stock to make an attractive display.

Dusty Roads Along Hudson.

New Windsor, March 30.—There
 is little frost in the roads. The river
 road to New Windsor is dried out
 considerably and is dusty in some
 places. This road in other years
 has been a mire of mud and takes
 many days to cross, but three or four
 weeks this week have done the
 trick. Tea is at work hauling
 gravel.

THEY SAY.

Express companies are reaping a
 harvest on freight consigned to New
 England points upon which there is
 an embargo at railroad freight offices
 at the present time. A large num-
 ber of shipments of household effects
 of workers going from Ulster county
 points to Bridgeport, Conn., and other
 munitions centers in New England
 are being handled by the express men
 together with what would be light
 freight under ordinary conditions.
 The express companies are about the
 only avenues left for entry into the
 sections named and their business has
 been swelled in proportion.

Miss Dour, instructor in drawing
 at the high school, is assured of some
 complimentary remarks concerning
 her course judging from the senti-
 ments expressed by Automobile Show
 exhibitors on the work of students
 who drew the poster cards for the
 armory this week. Representation of
 machinery on cards of this character
 is most difficult as the lines do not
 lend themselves to any artistic free-
 dom but the cards generally are well
 worth while and deserve the admira-
 tion showered upon them.

Incidentally The Freeman's auto-
 mobile edition was the subject of ad-
 miring comment about town yester-
 day and today. It was the most com-
 plete effort of its kind that has
 marked any of the newspaper editions
 in connection with automobile shows
 in the Hudson Valley and every one
 of its 26 pages had something of in-
 terest to the automobile trade as well
 as to the news-reading public.

"Stop, Look and Listen" signs are
 not in evidence at the show but cer-
 tainly the class of exhibits compels
 such action without any printed
 warnings being necessary. Some of
 this is going to be fatal to visitors for
 there is something about these exhibi-
 tions that sells cars even to the
 man who didn't intend to buy.

Official spring came several days
 ago, robins, bluebirds and other
 signs of spring have been noted but
 the never-failing sign of spring did
 not make its appearance until yester-
 day when the first hand organ or
 hurdy-gurdy made its appearance on
 the uptown streets.

A Walden young man is back from
 Bridgeport, Conn., with the accent
 on the abbreviation, and said that
 after three days' search for work he
 failed to locate anything to do. He
 is back at the Walden Knife Works
 with other young men who sought
 fame and fortune in munitions manu-
 facture. His experience, he says, is
 no small lesson of the dependence to
 be placed upon booms.

MENKE'S DAILY SPORTING LETTER

(By Frank G. Menke.)

New York, March 30.—The "Texas Tommy Punch" was conceived two years ago when Johnny O'Leary, lightweight champion of Canada, watched some "Texas Tommy" dancers in Frisco. It came in to being a short time later in St. Paul when O'Leary tried it out on Mike Gibbons—and nearly floored the "St. Paul Ghost."

The Canadian battler has used the punch for the past two years—but not until he executed the trick three times in a row in Philadelphia recently has it come to the full attention of pugilistic fans.

A. W. Maxwell, sporting editor of the Philadelphia Evening Ledger, tells us it is the cleverest ring trick he has seen pulled in many years.

How New Punch is Used.

"When O'Leary clinches with an opponent," said Maxwell, explaining the new "bacon producer," "he does not wait to be parted by the referee. Instead he grasps the back part of the arm nearest to him, at a point above the elbow, and while stepping back, turns the victim half way around."

"O'Leary puts a bit of violence into the twist. As a result, the other fellow is thrown off balance. While he is trying to regain it, O'Leary grabs the nearest arm again and whips the fellow around completely. That brings the victim face to face with O'Leary and while he is trying to recover himself, O'Leary dashes out a wallop for the jaw."

"The Canadian hits with either hand and carries shambler in. In looking over O'Leary's record, I find that rarely has any man remained on his feet after being given the twist and the 'Texas Tommy' punch."

O'Leary Discusses Discovery.

O'Leary, in discussing the new punch, and how he came to discover it, said:

"I dropped in at a dance hall in San Francisco two years ago and watched the fellows spin their girls in the Texas Tommy and then catch them before they fell. I got the fever, jumped out the floor with my girl and soon we were doing the 'twist.' I danced the 'Texas Tommy' nearly every night for a month and then went to St. Paul to work out for some fight I had there."

"While in St. Paul, I used the 'Texas Tommy Twist' by accident, and the funny part of it is that Mike Gibbons was the victim. Mike and I were boxing in the gymnasium and we fell into a clinch. I wasn't thinking of anything in particular, but when I grabbed Mike's arm to protect him, he unconsciously I whirled him the same as I did the girls in the Frisco dance hall. Mike spun around and before he recovered I slammed him on the jaw. The blow almost floored Gibbons and he backed away with both hands covering his face."

Nearly K. O.'s Ghost.

"I was so sure of myself that I demanded, 'Where did you get that awful wallop and what stunt are you pulling on me?' I told him

FOWL NOISES MAR STUDIES

Scholars at School No. 7 Also Pestered by Flies Which Enter the Unscreened Windows—Complaint Made to Board of Health.

It is understood that a complaint has been lodged with the board of health to the effect that the quacking of ducks and the crowing of roosters in the vicinity of School No. 7 interferes with the study period, and that also during the summer the scholars are pestered by flies that enter through the unscreened windows. The complaint it is said will be brought to the attention of the board for action at its next regular meeting.

From what can be learned there are some chickens and ducks kept by householders living near the school. These fowl have a habit of quacking and crowing at the most inconvenient hours instead of waiting until school is out. Efforts are being made, however, to educate the fowl to abstain from making undue noise during school hours and some owners are said to be working nights perfecting an appliance of the nature of a silencer to attach to the vocal apparatus of the fowl. Just what success the inventor is meeting is not known as yet.

There is also said to be uncovered manure piles in the vicinity of the school which afford an excellent breeding place for flies. As the board of education has so far failed to provide the school with window screens the flies seem bent on entering the school flying through the open windows during the hot summer days.

It is said that some parents of the pestered scholars are thinking of asking the education board to include in the school curriculum a course on "Swat the fly" and that each scholar be allowed a credit mark for the amount of flies killed. A study period of a quarter of an hour each day they believe would be enough to inculcate the principles of fly swatting in the scholars' minds.

The parents believe that it is rather hard on the child to have a fly alight on his paper when he is figuring up a long list of numbers and leaving in their wake decimal points where decimals were not.

Just what action will be taken in regard to the fowls and the flies is not known, but it would not be a bad idea for the board of education to furnish the school with window screens.

Later Day Sayings of Benjamin Franklin

"He that waits upon fortune is never sure of a dinner," said old Dr. Benjamin Franklin in his famous almanac and time and experience prove the truth of this saying.

The man, or woman, who is always saying he, or she is waiting for his, or her, "ship to come in," is a failure. Success and fortune do not come that way in this world. They must be sought and courted and worked for, just like a man courts his sweetheart.

The sluggard never reaches the goal of success, because he is always waiting for good luck to pop out of the sky and hit him.

There is, however, an invention of comparatively recent years, which almost makes fortune drop out of the sky and hit you and that invention is the Want Ad.
